The Electric Light Committee made the following written report:

To the Mayor and Council:

Your Electric Light Committee has met and considered the proposed street lighting contract offered by the Kansas Power Company. Your committee reports that it does not at this time recommend acceptance of the power company's offer for the reasons: (1) It is not clear to this committee just how much the city is to pay on a basis of kilowatt hours for the electric energy to be consumed under the proposed contract; (2) While the proposed contract would effect a saving to the city as compared with present street-lighting rates, yet the present rates are subject to reduction while the proposed contract would fix the new rates for five years; (3) This committee believes it would not be expedient to enter into a five-year contract, which would over-lap the term of the power company's franchise; (4) This committee does not believe the proposed reduction in street lighting rates is substantial enough to justify entering into a contract which would preclude the city from asking for further reductions for five years; (5) This committee invites a rate schedule which would also effect a reduction in the city's cost of water pumping.

Motion made, duly seconded and carried the Light Committee's report be accepted.

Motion made seconded and carried building committee's report that Continuation Certificate Bond No. 181337-8 Ohio Casualty Insurance Company Beulah Morgan Water Department obligee in the amount of \$5,000.00 premium \$25.00 one year be accepted.
