

Permit Application Requirements

Demolitions

Prior to the demolition of any structure in Oakland Township, the owner or qualified representative must submit the following information to the Building Department.

1. A completed building permit application
2. A letter of clearance from Detroit Edison, Consumers Energy and Ameritech indicating that the service connections have been properly disconnected.
3. Submit proof of ownership or appropriate authorization as agent for the owner.
4. Signed affidavit from contractor or homeowner that the septic tank has been crushed and filled, or if building is attached to public sanitary system a letter from the Oakland County Water and Sewer Department indicating that the sanitary line has been properly terminated.
5. Proof from the Oakland County Health Department that the well has been properly abandoned, or that they will permit the well to remain.

If all of the above information is submitted a permit to demolish the building may be issued at the time of application.
