

# **Permit Application Requirements**

## **Ponds**

Prior to beginning construction of any pond in or near a wetland in Oakland Township, the owner or qualified representative must submit the following information to the Building Department.

1. A completed pond permit application.
2. A copy of the wetland report from the Township wetland consultant.
3. A copy of the Department of Environmental Quality permit.
4. Two copies of a site plan indicating the exact location of the pond, its distances from property lines, the location of the wetland boundary, the location of the 25 natural features setback and the slope and depth of the pond.
5. A \$100.00 non-refundable deposit.
