(1) The City Council shall take a vote on whether to excuse a member's absence from a meeting upon either: a written request from the members submitted to the City Clerk or a motion of any other Council member.

(2) If a Council member has been absent from more than five consecutive regular meetings and none of the absences have been excused by a majority vote of the remaining members, the City Clerk shall include this as an item on the agenda for the next regular meeting. At that meeting, the Council shall set a date for a hearing and direct the City Clerk to give the member notice of the hearing by personal service or first-class mail to the member's last known address.

(3) At the hearing, the Council member shall have the right to present information on why one or more of the absences should be excused. If the Council does not excuse one or more of the member's absences by a majority vote at the conclusion of the hearing, there shall be a vacancy on the Council.

If the Council members are elected by ward, the Council member elected or appointed to fill the vacancy shall be a registered voter of the ward in which the vacancy exists. If for any reason the seats of a majority of the Council become vacant, the Secretary of State shall conduct a special election to fill the vacancies for the unexpired portion of each term. (E) (1) The Mayor shall call a special meeting of the Council or place the issue of filling such vacancy on the agenda at the next regular meeting at which time the Mayor shall submit the name of a qualified registered voter to fill the vacancy for the balance of the unexpired term. The Council shall vote upon such nominee, and if a majority votes in favor of such nominee, the vacancy shall be declared filled.

(2) If the nominee fails to receive a majority of the votes, the nomination shall be rejected and the Mayor shall, at the next regular or special meeting, submit the name of another qualified registered voter to fill the vacancy. If the subsequent nominee fails to receive a majority of the votes, the Mayor shall continue at such meeting to submit the names of qualified registered voters in nomination and the Council shall continue to vote upon such nominations at such meeting until the vacancy is filled. The Mayor shall cast his or her vote for or against the nominee in the case of a tie vote of the Council. All Council members present shall cast a ballot for or against the nominee. Any member of the City Council who has been appointed to fill a vacancy on the Council shall have the same rights, including voting, as if such person were elected.

(F) The Mayor and Council may, in lieu of filling a vacancy in a city elected office as provided in divisions (C) through (E) above, call a special city election to fill such vacancy.

(G) If vacancies exist in the offices of a majority of the members of the City Council, the Secretary of State shall conduct a special election to fill the vacancies.

(H) No official who is removed at a recall election or who resigns after the initiation of the recall process shall be appointed to fill the vacancy resulting from his or her removal or the removal of any other member of the same governing body during the remainder of his or her term of office.

### **§ 30.037 CLOSED SESSION.**

(A) (1) Any public body may hold a closed session by the affirmative vote of a majority of its voting members if a closed session is clearly necessary for the protection of the public interest or for the

prevention of needless injury to the reputation of an individual and if such individual has not requested a public meeting. The subject matter and the reason necessitating the closed session shall be identified in the motion to close.

(2) Closed sessions may be held for, but shall not be limited to, such reasons as:

(c) Investigative proceedings regarding allegations of criminal misconduct; or

(d) Evaluation of the job performance of a person when necessary to prevent needless injury to the reputation of a person and if such person has not requested a public meeting.

(2) The prevention of needless injury to the reputation of an individual. Such challenge shall be overruled only by a majority vote of the members of the public body. Such challenge and its disposition shall be recorded in the minutes.

(D) Nothing in this section shall be construed to require that any meeting be closed to the public. No person or public body shall fail to invite a portion of its members to a meeting, and no public body shall designate itself a subcommittee of the whole body for the purpose of circumventing the Open Meetings Act. No closed session, informal meeting, chance meeting, social gathering, email, fax, or other electronic communication shall be used for the purpose of circumventing the requirements of the act.

(E) The Act does not apply to chance meetings or to attendance at or travel to conventions or workshops of members of a public body at which there is no meeting of the body then intentionally convened, if there is no vote or other action taken regarding any matter over which the public body has supervision, control, jurisdiction, or advisory power.

(2) A proposed budget statement shall contain the following information, except as provided by state law:

(a) For the immediately preceding fiscal year, the revenue from all sources, including motor vehicle taxes, other than revenue received from personal and real property taxation, allocated to the funds and separately stated as to each such source: the unencumbered cash balance at the beginning and end of the year; the amount received by taxation of personal and real property; and the amount of actual expenditures;

(b) For the current fiscal year, actual and estimated revenue from all sources, including motor vehicle taxes, allocated to the funds and separately stated as to each such source: the actual unencumbered cash balance available at the beginning of the year; the amount received from personal and real property taxation; and the amount of actual and estimated expenditures, whichever is applicable. (c) For the immediately ensuing fiscal year, an estimate of revenue from all sources, including motor vehicle taxes, other than revenue to be received from taxation of personal and real property, separately stated as to each such source: the actual or estimated unencumbered cash balances, whichever is applicable, to be available at the beginning of the year; the amounts proposed to be expended during the year; and the amount of cash reserve, based on actual experience of prior years, which cash reserve shall not exceed 50% of the total budget adopted exclusive of capital outlay items;

(B) The actual or estimated unencumbered cash balance required to be included in the budget statement by this section shall include deposits and investments of the municipality as well as any funds held by the County Treasurer for the municipality and shall be accurately stated on the proposed budget statement.

(C) The municipality shall correct any material errors in the budget statement detected by the Auditor of Public Accounts or by other sources.

**PROPERLY SHREDDED GARBAGE.** The wastes from the preparation, cooking, and dispensing of food that have been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch (1.27 centimeters) in any dimension.

## ***SERVICE***

### **§ 51.015 SERVICE APPLICATIONS.**

(A) Application for permits to make connection with the city wastewater system must be in writing and signed by the owner or authorized agent of the owner of the property to be drained and be filed in the office of the City Clerk.

(B) The city shall not incur any cost or expense beyond its commercial mains in providing the means of such service inside and outside its corporate limits.

(C) Permits granted hereunder shall be subject to the condition that the lot owners shall take all risk of damage that may result from water settling back on their premises from the main sewer. (2007 Code, § 42-201) (Ord. 843, passed 2-11-1986; Ord. 963, passed 4-9-1991)

### **§ 51.016 SERVICE DEPOSIT.**

(A) Said applicant for sewer service shall accompany his or her application with a service deposit in an amount set by the Council unless said applicant has a deposit on file for water service at the same location. Said service deposit shall be applied to the applicant's account at the end of 12 months of continuous service providing no more than one disconnection notice has been issued on that account during that 12-month period. The city may waive the service deposit if the applicant/customer supplies the city with two acceptable letters of reference from previous utility providers that verify the applicant/customer has not had a late payment or utility disconnect within the previous 12 months. If the city waives the service deposit after the deposit has been made, the city will credit the deposit amount to the customer's account.

(B) If said applicant is an individual or entity who has previously left the city with an unpaid utility bill, then the service deposit shall be three times the amount set by the Council.

(C) (1) If any consumer has received a total of two disconnection notices in any 12 months of continuous service, an additional deposit shall be required, which shall be the amount of the initial deposit, thereby increasing the total amount on deposit to double the normal service deposit.

(2) If any consumer has received a total of four disconnection notices in any 12 months of continuous service, a third deposit shall be required, which shall be the amount of the initial deposit, thereby increasing the total amount on deposit to triple the normal service deposit.

(D) (1) If a consumer's check or automatic bank withdrawal is not honored by the bank for reason of insufficient funds or no funds, the city shall initiate the appropriate procedure on said consumer's account as though no payment had been made. The consumer shall also be liable for non-sufficient funds (NSF) fee, as established by resolution, for insufficient funds check or non-honored automatic bank withdrawal.

(2) If there is a second occurrence of a consumer's check or automatic bank withdrawal not

being honored by the bank for reason of insufficient funds or no funds in any 12 months of continuous service, an additional deposit shall be required, which shall be the amount of the initial deposit, thereby increasing the total amount on deposit to double the normal service deposit. The consumer shall also be liable for non-sufficient funds (NSF) fee, as established by resolution, for insufficient funds check or non-honored automatic bank withdrawal.

(3) If there is a third occurrence of a consumer's check or automatic bank withdrawal not being honored by the bank for reason of insufficient funds or no funds in any 12 months of continuous service, an additional deposit shall be required, which shall be the amount of the initial deposit, thereby increasing the total amount on deposit to triple the normal service deposit. The consumer shall also be liable for non-sufficient funds (NSF) fee, as established by resolution, for insufficient funds check or non-honored automatic bank withdrawal.

(E) If a consumer has been required to make a new or additional deposit because of disconnection notices or dishonored checks or bank withdrawals, the amount so required to be on deposit shall not be returned by the Clerk until a period of 36 months of continuous service has elapsed in which no disconnection notice has been issued, and there have been no instances of dishonored checks or bank withdrawals.

(B) Material to be supplied by the city shall consist only of the material necessary to make a connection to the sewer main. No sewer service line shall be provided.

(C) The labor to be furnished by the city shall consist only of the actual tapping of the sewer main. It shall be unlawful for any person, except such persons as may be specifically authorized by the City Manager, to tap the sewer mains of the city or insert saddles thereon under any circumstances. The city shall not perform any excavation as part of the tap or connection. It shall be the responsibility of the customer to expose the main to be tapped.

(D) All applicants for connection to the city's sewer system which seek to connect to the system where a sewer extension district has been created and whose property shall not have been charged by way of special assessments for said sewer service, shall pay in addition to the deposit required by this code of ordinances, a sewer connection fee to the City Clerk/Treasurer, which sewer connection fee shall be based upon the same formula used to determine the amount of special assessments charged in the original district; provided, that no connection shall be made to the sewer system until such deposit and appropriate sewer connection fee shall have been paid in full.

(E) To prevent such settling back of water, the owner shall be required, at the owner's expense, to install and maintain in good repair a self-acting backflow or check valve.

#### **§ 51.018 SERVICE CONTRACTS.**

Contracts for sewer service are not transferable. Any person wishing to change from one location to another shall make a new application and sign a new contract. If any customer shall move from the premises where service is furnished, or if the said premises where service is furnished is destroyed by fire or other casualty, he or she shall at once inform the City Manager who shall cause the sewer service to be shut off from the premises. If the customer should fail to give notice, he or she shall be charged for that period of time until the official in charge of sewers is otherwise advised of such circumstances. (2007 Code, § 42-204)

### **§ 51.019 INSTALLATION, CONNECTION, AND EXCAVATION; PERMITS.**

(A) No connection to a sewer main or lateral of the city shall be made prior to obtaining a permit from the City Manager. Such permit shall specify the property to be served by such sewer tap, the size of the service line to be laid into the sewer main, the method of entrance into the sewer main either through an existing Y or T branch or by sewer saddle installed by the city, and such other information as may be deemed necessary and appropriate.

(B) Connections to the main sewer or laterals shall be made into an exiting Y or T branch installed at the time of the construction of the sewer line or into a Y or T saddle installed by the city. No other entrances shall be made into the city sewer main other than those specified above. In those cases where an entrance into the sewer main is requested which requires the installation of a saddle, the applicant will apply at least 48 hours in advance of the time that the tap is required.

(C) In making excavations in streets, alleys, or sidewalks for the purpose of installing pipe or making repairs, the paving, stones, and earth must be removed and deposited in a manner that will occasion the least inconvenience to the public and provide for adequate drainage. The customer shall comply with all procedures required by the City Manager in order to accomplish the sewer tap, including the excavation of dirt down to the sewer line, the clearing of dirt around the sewer at the point where the tap is requested, and the proper backfilling around the sewer main after the saddle has been installed. (D) No deduction shall be made for the time any service remains out of use.  
(2007 Code, § 42-301)

### **§ 51.036 BILLING.**

(B) The City Manager may set limitations lower than the limitations established in the regulations (below), if in his or her opinion, such more severe limitations are necessary to meet the above objectives. In forming his or her opinion as to the acceptability, the City Manager will give consideration to such factors as the quantity of subject waste in relation to flows and velocities in the sewers, materials of construction of the sewers, the wastewater treatment process employed, the capacity of the water pollution control facility, the degree of treatability of the waste in the water pollution control facility, and other pertinent factors.

  - (d) Unusual volume of flow or concentration of wastes constituting "sludge" as defined herein.
- (10) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters; or

### **§ 51.073 REMEDIES AND OPTIONS OF THE CITY.**

(A) If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in this chapter, and which, in the judgment of the City Manager, may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the City Manager may:

(1) Reject the wastes;

(2) Require pretreatment to an acceptable condition for discharge to the public sewers;

(3) Require control over the quantities and rates of discharge; and/or

(4) Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of § 51.003(E).

(B) (1) When considering the above alternatives, the City Manager shall give consideration to the economic impact of each alternative on the discharger.

(2) If the City Manager permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the City Manager.

(2007 Code, § 42-604)

### **§ 51.074 GREASE, OIL, AND SAND INTERCEPTIONS.**

(B) All interceptors shall be of a type and capacity approved by the City Manager and shall be located as to be readily and easily accessible for cleaning and inspection. In the maintaining of these interceptors, the owner shall be responsible for the proper removal and disposal by appropriate means of the captured material and shall maintain records of the dates and means of disposal which are subject to review by the City Manager.

(C) Any removal and hauling of the collected materials not performed by the owner's personnel must be performed by currently licensed waste disposal firms.

### **§ 51.075 MAINTENANCE OF EQUIPMENT.**

Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his or her expense.

(2007 Code, § 42-606) Penalty, see § 51.999

#### **§ 51.076 CONTROL MANHOLES.**

When required by the City Manager, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the City Manager. The manhole shall be installed by the owner at his or her expense, and shall be maintained by him or her so as to be safe and accessible at all times.

(2007 Code, § 42-607) Penalty, see § 51.999

#### **§ 51.077 MEASUREMENTS, TESTS, AND ANALYSES.**

### **§ 52.016 SERVICE DEPOSIT.**

(A) The City Clerk shall require an applicant for water to accompany his or her application with a service deposit in an amount set by the Council. Said service deposit shall be applied to the applicant's account, at the end of 12 months of continuous service providing no more than one disconnection notice has been issued on that account during that 12-month period. The city may waive the service deposit if the applicant/customer supplies the city with two acceptable letters of reference from previous utility providers that verify the applicant/customer has not had a late payment or utility disconnect within the previous 12 months. If the city waives the service deposit after the deposit has been made, the city will credit the deposit amount to the customer's account.

(2) If there is a second occurrence of a consumer's check or automatic bank withdrawal not being honored by the bank for reason of insufficient funds or no funds in any 12 months of continuous service, an additional deposit shall be required, which shall be the amount of the initial deposit, thereby increasing the total amount on deposit to double the normal service deposit. The consumer shall also be liable for a non-sufficient funds (NSF) fee, as established by resolution, for insufficient funds check or non-honored automatic bank withdrawal.

(3) If there is a third occurrence of a consumer's check or automatic bank withdrawal not being honored by the bank for reason of insufficient funds or no funds in any 12 months of continuous service, an additional deposit shall be required, which shall be the amount of the initial deposit, thereby increasing the total amount on deposit to triple the normal service deposit. (E) If a consumer has been required to make a new or additional deposit because of disconnection notices or dishonored checks or bank withdrawals, the amount so required to be on deposit shall not be returned by the Clerk until a period of 36 months of continuous service has elapsed in which no disconnection notice has been issued, and there have been no instances of dishonored checks or bank withdrawals.

If any consumer shall sell, dispose, or remove from the premises where service is furnished, or if the said premises is destroyed by fire or other casualty, he or she shall at once inform the City Manager who shall cause the water service to be shut off at the said premises. (D) All water sold shall be measured and delivered to consumers at the metered or bulk rate as established by resolution. No water shall be furnished to any consumer under any other rate than is provided by this section except to consumers using water service on premises outside the corporate limits in which case the water service shall be furnished to the consumer at such rates as the Council may by resolution uniformly fix.

(2007 Code, § 43-301)

### **§ 52.037 DISCONTINUANCE OF SERVICE.**

(A) (1) The city shall have the right to collect a late fee, as established by resolution, and begin procedures to discontinue services and remove its properties if the charges for such services are not paid within 20 days after the date that the same becomes due. Before any termination of service, the Water

If notice is given by first-class mail, such mail shall be conspicuously marked as to its importance. Service shall not be discontinued for at least seven days after notice is sent or given. Holidays and weekends shall be excluded from the seven days. Such certificate shall be filed with the utility within five days of receiving notice under this section and will prevent the disconnection of the utilities services for a period of 30 days from such filing. The designation of any street, highway, or portion thereof as a snow emergency route shall in no way affect any previous designation of that street or highway as an arterial or other road designation.

(B) *Declaration of emergencies; automatic prohibition; prohibition of parking on snow emergency routes.*

(1) Whenever the President of the Council or the City Manager shall find, on the basis of falling snow, sleet, or freezing rain or on the basis of an official forecast by the U.S. Weather Bureau of snow, sleet, or freezing rain, that weather conditions will make it necessary that motor vehicle traffic be expedited and that parking on city snow emergency routes be prohibited or restricted for snow plowing and other purposes, the President or the City Manager may place into effect a parking prohibition on all

snow emergency routes by declaring that emergency conditions exist; provided, however, the provisions of this division (B) shall take effect automatically when the conditions set forth in division (C) below take place.

(2) In such declaration of emergency conditions, the President or the City Manager shall state the time that said emergency shall be in effect, and from the time so designated all parking of vehicles on snow emergency routes shall be prohibited. While the prohibition is in effect, no person shall park or allow to remain parked any vehicle on any portion of a snow emergency route. Once in effect, the parking prohibition imposed under this division (B)(2) shall remain in effect until terminated by declaration of the President or the City Manager, however, nothing in this division (B)(2) shall be construed to permit parking at any time or place where it is forbidden by any other provision of law.

(C) *Parking after snow.* Whenever there may have fallen three or more inches of snow on the streets of the city during any 24-hour period, it shall be unlawful for any automobiles to be parked on any snow emergency route within the city until after such accumulated snow shall have been removed by snow removers provided by the city. Any automobile left parked in violation of this division (C) may be ordered removed by the Chief of Police and such illegal parking shall constitute appointment of the Chief of Police as agent of the owner and mortgagee thereof to contract with any other party to remove said automobile as provided this chapter. If such unlawfully parked automobile is not removed, and by reason of its presence, any part of the streets of the city are impossible to plow clear of snow, the person in violation of this division (C) shall be civilly liable to the city for any added plowing expense necessarily incurred as a result of such unlawful parking, unless the violator shall promptly clean such unplowed area himself or herself.

(D) *Operation of motor vehicles on snow emergency routes.* Whenever an emergency has been declared pursuant to this section, no person operating a motor vehicle on a snow emergency route shall allow such vehicle to become stalled or stuck.

(E) *Stalled vehicle on snow emergency route.*

(1) Whenever a motor vehicle becomes stalled for any reason, whether or not in violation of this chapter, on any snow emergency route on which there is a parking prohibition in effect, the person operating such vehicle shall take immediate action to have the vehicle towed or pushed off the roadway of such snow emergency route, either onto the nearest cross-street which is not a snow emergency route or to another appropriate location.

(2) No person shall abandon or leave his or her vehicle in the roadway of a snow emergency route except for the purpose of securing assistance during the actual time necessary to go to a nearby telephone or to a nearby garage, gasoline station, or other place of assistance and return without delay.

(1) (a) The President of the Council or the City Manager shall cause each declaration of a snow emergency made by him or her, pursuant to this section, to be publicly announced by means of broadcast from broadcasting stations with a normal operating range covering the city and he or she may cause such a declaration to be further announced in a newspaper of general circulation when feasible.

(b) Each announcement shall describe the action taken by the President or the City Manager, including the time it became or will become effective, and shall specify the streets or areas affected. The President or the City Manager shall make or cause to be made a record of each time and date when any declaration is announced to the public by issuing an executive order as soon after the declaration of an emergency as is feasible.

(2) Whenever the President or the City Manager shall find that some or all of the conditions which gave rise to a parking prohibition placed in effect pursuant to the provisions of this section no longer exist, he or she may declare the prohibition terminated, in whole or in part, effective immediately upon announcement or at a later specified time.

(G) *Provisions temporarily effective to take precedence.* Any provision of this chapter which becomes effective by declaration of the President of the Council or City Manager upon the occurrence of a snow emergency, while temporarily in effect, takes precedence over other conflicting provisions of law normally in effect, except that it shall not take precedence over provisions of law relating to traffic accidents, emergency travel of authorized emergency vehicles, or emergency traffic directions by a police officer.  
(2007 Code, § 41-317) Penalty, see § 72.99

### **§ 72.18 SNOW ACCUMULATION DEPOSITED ON PUBLIC WAYS.**

It shall be unlawful to deposit any snow removed from private property, on any sidewalk, alley, street, or other public ways within the city, or to deposit said snow in such a manner that in any way impairs visibility of, or hinders, blocks or impedes, pedestrian or motor vehicle traffic on any sidewalk, alley, street or other public ways within the city.

(B) *No truck parking areas.*

(1) It shall be unlawful for the operator of any truck with an overall length of more than 18 feet to stop, park, or unload any such vehicle on a street which the Council has designated to be a “no truck parking area”, unless loading or unloading in an alley is impossible and then said vehicles may stop, stand, or unload only after the operator of said truck has obtained written permission from the city police to do so. It shall be unlawful for the operator for any truck, regardless of length, to park said vehicle within a street intersection, on a crosswalk, in front of a private driveway, or on a sidewalk.

(2) The Council may, by resolution, provide truck parking areas adjoining, or adjacent to, the “no truck parking area”, and when such parking areas are provided, it shall be the duty of all truck operators to use such parking areas for all parking purposes. No truck, including oil tankers, shall park or stop for any period of time within the limits of any street outside the “no truck parking area”, except for the purpose of loading or unloading the cargo thereof in the ordinary course of business except in the area or areas provided for by the Council by resolution; provided, that the operator may stop and park his or her vehicle one time while en route through the city for a time no longer than 30 minutes for rest and meals. The stop referred to in the previous sentence shall not be within the “no truck parking area”. “No truck parking area” signs shall be erected and placed at or near each means of approach to said area by resolution of the Council.

(C) *Trucks in residential districts.*

(1) Except for pickup trucks, all trucks including tractor-trailers, semi-tractors, semi-trailers, motor carriers, common carriers, or contract carriers of property which stop or park on any street or alley within any residential district must park no less than 25 feet from an intersection, alley, or driveway of abutting property, and except for common carriers making a pickup or delivery, must be parked immediately adjacent to, and in front of, the residence of the truck operator.

(2) All semi-trailers stopped or parked in residential areas shall be attached to the semi-tractor and shall be unloaded except for any common carrier making a pick-up or delivery. Refrigeration units or other power units on parked tractor or trailer units are prohibited from operating; provided, however, that engines of parked semi-tractor units are allowed to run for 30 minutes during any 12-hour period. No carrier shall use or employ any portion of the parking space in any residential district for any other commercial purpose.  
(2007 Code, § 41-319)

(D) *Unlawful parking.*

Such violations shall not be subject to prosecution in the courts, except when payment of the administrative fee and fine is not made within the time prescribed by this section. When payment is not made within such time, the violation shall be prosecuted in the same manner as other violations of this code of ordinances.

(B) *Collecting and accounting of monies.* The Violations Bureau shall collect and account for all monies paid pursuant to this section, issue receipts therefor, and keep records of all violators, showing the name, time, and date of violation and disposition. All monies collected shall be disbursed by the city as provided by law.

(C) *Parking citations; generally.* Whenever any motor vehicle, with or without driver, is found parked, standing, or stopped in violation of this code of ordinances or of any statute of the state relating to parking, all of which shall be referred to in this section as "parking violations", the officer finding such vehicle shall take the registration number of the vehicle and may take any other information displayed on the vehicle which may identify the vehicle owner or operator, and shall conspicuously

affix to such vehicle a parking citation on a form provided by the Chief of Police for such purpose, which form shall require the owner or operator to answer to the charge against him or her in accordance with this section.

(D) *Presumption of parking violation.* In any prosecution charging a violation of any law or regulation governing the standing or parking of a vehicle, proof that the particular vehicle described in the complaint was parked in violation of such law or regulation, together with proof that the defendant named in the complaint was at the time of such parking the registered owner of such vehicle, shall constitute in evidence a prima facie presumption that the registered owner of such vehicle was the person who parked or placed such vehicle at the point where and for the time during which such violation occurred.

### **§ 92.20 INVESTIGATION AND PRESENTATION OF NUISANCES BY NUISANCE OFFICER.**

(A) The Nuisance Officer shall identify and confirm that in his or her opinion a nuisance exists as defined by federal or state law or city ordinance.

(D) The City Council, after hearing the evidence from the Nuisance Officer regarding the existence of a nuisance, shall then take action regarding the potential nuisance identified by the Nuisance Officer. The City Council may, by resolution, declare a nuisance that the real estate or location specified by the Nuisance Officer is or contains a nuisance. If the City Council takes no action then the report of potential nuisance of the Nuisance Officer shall be of no effect and no nuisance shall be declared.

(E) At the time of a declaration of nuisance, the City Council shall designate the method(s) of enforcement the City Council has chosen as specified in §§ 92.21 through 92.23 of this subchapter. The City Council may pursue more than one method of enforcement.

(Ord. 1343, passed 6-14-2016)

### **§ 92.22 ADMINISTRATIVE NUISANCE ABATEMENT.**

The city may proceed with abatement of the nuisance, sanitation, and/or health violation with or without judicial interpretation or decision after the following procedure is followed:

(A) After a nuisance is declared, the City Clerk notifies the Nuisance Officer to serve notice upon the violator(s).

(B) Within five days of a declaration of nuisance by the City Council, the Nuisance Officer or City Clerk shall prepare and serve notice by personal service or certified mail to all owner(s) of any real estate declared a nuisance by the City Council.

(C) The notice served by the Nuisance Officer shall provide information as to how the interested parties may request a hearing before the City Council described in division (E) of this section.

(D) If notice by personal service or certified mail is unsuccessful, said notice shall be given by a single publication in a newspaper of general circulation in the city or county of the city, and by conspicuously posting the notice on the lot or ground upon which the nuisance is to be abated and removed. The date of service is determined by the later date of any certified mail receipt, personal service or publication date.

(E) The accused violator including any owner of the real estate declared to be or contain a nuisance and/or any occupant of any real estate alleged to have or contain a nuisance may request in writing a hearing before the City Council within five days after notice of violation is served or published. For tree nuisance violations, the period for requesting a hearing is extended to 30 days after service.

(F) If no request for a hearing is received in the required time period, the City Council or Nuisance Officer may cause a hearing to be held. This option is at the sole discretion of the City Council or the Nuisance Officer. The City Council may cause a hearing to be held by resolution of the City Council. The Nuisance Officer may exercise the option to conduct a hearing regarding the nuisance by submitting to the City Clerk a written request for hearing regarding a particular nuisance to the City Clerk no less than five days prior to the date the hearing will be held before the City Council. Hearings at the request of either the Nuisance Officer or City Council are to be used only in exceptional case.

(G) If a hearing is requested, the City Clerk shall fix a date of hearing to be no later than 14 days from receipt of the request for the hearing. Notice of hearing with the date and time shall be served upon the owner, and occupant, if any, of the nuisance property by regular first-class mail.

(H) The hearing shall be a show cause hearing in which the owner or occupant of the nuisance property may provide evidence why the alleged condition should not be found to be a public nuisance and remedied. This hearing shall be heard before a quorum of the City Council. The President of the City Council may conduct the hearing or the City Council President may appoint another city official or legal counsel as the hearing officer to conduct the hearing. At the hearing, the hearing officer shall mark and receive evidence which was presented when the finding of a nuisance was made, relevant evidence of the nuisance since that time, and evidence that the notices were properly given. The objecting parties shall then present evidence. The rules of evidence shall not apply at said hearing, but all evidence must be relevant to the particular nuisance being heard. Testimony shall be under oath as administered by the hearing officer or any person so designated by the hearing officer, and the person providing the testimony is subject to the laws of perjury. Evidence may be submitted in writing by affidavit.

(I) No later than five business days after the hearing and consideration of the evidence, the City Council may by majority vote rescind the resolution of violation. If the resolution of violation is not rescinded, it shall stand. Furthermore, if the party objecting to the declaration of a nuisance by the City

Council fails to appear at the hearing or does not provide evidence, the nuisance shall stand. If the resolution is not rescinded, the City Council may, by resolution, extend the date that owner, occupant, lessee, or mortgagee shall abate and remedy the said public nuisance, but in no case shall this time exceed 60 days. The findings of the City Council shall be served upon the objecting party either personal service or certified mail within five days of the finding by the City Clerk or by the Nuisance Officer. The finding of this hearing is final, provided that an interested party or parties may appeal such decision to the appropriate court for adjudication.

(J) If the Nuisance Officer determines the nuisance is not remedied and abated within the time period designated, the city shall cause the abatement of the nuisance.

(K) If an interested party properly appeals to an appropriate court, the findings and orders of the city to an appropriate court, then any orders of abatement of a nuisance or other enforcement shall be stayed until such time that the legal proceedings are concluded.  
(Ord. 1343, passed 6-14-2016)

### **§ 92.23 CRIMINAL PROSECUTION.**

If the declared nuisance, health, and/or sanitation violation is not abated within 15 days that the notice of designation of nuisance by the City Council is served upon the owner and/or occupant, and the City Clerk has not received a request for hearing, the Nuisance Officer may cause the issuance of a citation for the code violation.

(A) The citation shall be prosecuted to the appropriate court by the City Attorney or other designated prosecutor for the city.

(B) Upon a declaration of nuisance and a direction from the City Council to the Nuisance Officer to pursue criminal prosecution of the nuisance, the Nuisance Officer shall issue a criminal citation informing the alleged owner and/or occupant of any real estate declared to be a nuisance in accordance with applicable law governing the issuance and service of citations.

(C) A person or persons found guilty of this section shall be guilty of a misdemeanor and fined up to \$500 per each offense.

(D) Each day that the nuisance as identified in the nuisance resolution and notice is not abated shall be a separate offense and subject to a separate fine.  
(Ord. 1343, passed 6-14-2016) Penalty, see § 92.99

### **§ 92.24 CIVIL ENFORCEMENT.**

The City Council, by majority vote, may instruct by resolution direct the City Attorney to file a civil action for the abatement of a nuisance by majority vote. Said civil suit may commence immediately upon the declaration of nuisance being duly passed by the City Council. Any civil action to enforce the City Code regarding nuisances may be filed and prosecuted at the same time any other enforcement procedure or after any other enforcement procedure has terminated.  
(Ord. 1343, passed 6-14-2016)

### **§ 92.25 EXPENSES OF NUISANCE ABATEMENT OR ENFORCEMENT.**

(A) When the city has effected the abatement of the nuisance, health and/or sanitation violation through either city employees or through contract with a third party and has incurred expenses and costs thereof, the actual cost thereof shall be charged to the owner, agent, occupant or person in possession, charge or control of such property. The billing shall be calculated at the actual cost of abating the nuisance plus a \$25 administrative fee.

(B) This billing shall be submitted to the last known address of the owner of the nuisance property as found in the County Treasurer's office by regular first-class mail.

(C) If said costs are not paid within two months after the work is done and one month after the expenses and costs are submitted to the owner and/or occupant, the city may levy and assess the expenses and costs upon the real estate benefitted by the actions in the same manner as other special assessments are levied and assessed, and the city may collect said assessments in the same procedure as other special assessments are collected under state law or city ordinance. In addition to any levy or assessment procedures, the city may also recover said expenses and costs of abating the nuisance, health and/or sanitation violation(s) in a civil action in the courts of the appropriate county in the state. (Ord. 1343, passed 6-14-2016)

#### **§ 92.26 SOUND AMPLIFIERS; PERMITS REQUIRED.**

(A) It shall be unlawful to maintain or operate any loudspeaker or amplifier connected with any radio, phonograph, microphone, or other device by which sounds are magnified and made heard over any public street or other public place without having first secured a permit therefore.

(B) (1) The deposit for permits to be granted under this section shall be established by the City Council by resolution.

(2) The deposit shall be refundable upon the completion of the permit period as long as no law enforcement action was taken concerning the activity for which the permit was issued.

(3) The permit shall be effective for no longer than a continuous five-day period.

(C) Any person, firm, or corporation desiring a permit for the use or operation of such device shall file an application thereof with the City Clerk, upon a form provided by him or her, setting forth the name and address of the applicant, the name of the owner of such device, the dates upon which it is intended to be used, and such other information as may be prescribed.

(D) Such permit shall be issued upon the payment of a deposit, as above provided, to the City Clerk, and shall permit the use of any such device subject to the terms and conditions of this section only upon the dates specified on such permit and no other. Said permit shall be displayed in plain view in a conspicuous place at the event.

(E) No permittee shall use or operate or employ any such device within the city limits before 9:00 a.m. nor after 1:00 a.m.; and no permittee shall use, operate, or employ any such device within a radius of two blocks from any hospital or within the radius of two blocks from any church while funeral services are being held there.

(F) The Chief of Police or his or her representative shall have the authority to revoke a permit issued pursuant to this section if the Police Department has received two or more signed complaints of loud or disturbing noise within a 12-hour period. The Police Department shall further be empowered to seize any amplifying equipment that continues to be in use after the revocation of the permit or which is being used

without a permit being issued.

(G) If the person, firm, or corporation has his/her/its permit revoked two times within a four-month period, he/she/it cannot reapply for such permit for a period of 12 months from the date of the last revocation.

## **GRAFFITI**

### **§ 94.50 PURPOSE AND FINDINGS.**

(A) The purpose of this subchapter is to prevent the spread of graffiti in the city through measures reasonably calculated to deter graffiti and to encourage and facilitate rapid removal when it occurs.

(B) The City Council makes the following finds in enacting this subchapter.

(1) Graffiti is a form of vandalism defacing public and private property without the consent of the owner,

(2) Graffiti creates visual pollution and blight that adversely affects the enjoyment and value of public and private property and causes citizens, businesses, and the city to incur the cost of removal and repair.

(3) Graffiti is a visual symbol of disorder and lawlessness. It contributes to a downward spiral of blight and decay, decreasing property values, lessening business viability, and potentially adversely affecting tax revenues.

(4) There is substantial evidence that rapid removal of graffiti is an effective prevention strategy that discourages its return. In addition, there is substantial evidence that failure to promptly remove graffiti increases the likelihood that more graffiti will occur on the same site and on other nearby property.

For tree nuisance violations, the period for requesting a hearing is extended to 30 days after service.

(F) If no request for a hearing is received in the required time period, the City Council or Nuisance Officer may cause a hearing to be held. This option is at the sole discretion of the City Council or the Nuisance Officer. The City Council may cause a hearing to be held by resolution of the City Council. The Nuisance Officer may exercise the option to conduct a hearing regarding the nuisance by submitting to the City Clerk a written request for hearing regarding a particular nuisance to the City Clerk no less than five days prior to the date the hearing will be held before the City Council. Hearings at the request of either the Nuisance Officer or City Council are to be used only in exceptional case.

(G) If a hearing is requested, the City Clerk shall fix a date of hearing to be no later than 14 days from receipt of the request for the hearing. Notice of hearing with the date and time shall be served upon the owner, and occupant, if any, of the nuisance property by regular first-class mail.

(H) The hearing shall be a show cause hearing in which the owner or occupant of the nuisance property may provide evidence why the alleged condition should not be found to be a public nuisance and remedied. This hearing shall be heard before a quorum of the City Council. The President of the City Council may conduct the hearing or the City Council President may appoint another city official or legal counsel as the hearing officer to conduct the hearing. At the hearing, the hearing officer shall mark and receive evidence which was presented when the finding of a nuisance was made, relevant evidence of the nuisance since that time, and evidence that the notices were properly given. The objecting parties shall then present evidence. The rules of evidence shall not apply at said hearing, but all evidence must be relevant to the particular nuisance being heard. Testimony shall be under oath as administered by the hearing officer or any person so designated by the hearing officer, and the person providing the testimony is subject to the laws of perjury. Evidence may be submitted in writing by affidavit.

(I) No later than five business days after the hearing and consideration of the evidence, the City Council may by majority vote rescind the resolution of violation. If the resolution of violation is not rescinded, it shall stand. Furthermore, if the party objecting to the declaration of a nuisance by the City Council fails to appear at the hearing or does not provide evidence, the nuisance shall stand. If the resolution is not rescinded, the City Council may, by resolution, extend the date that owner, occupant, lessee, or mortgagee shall abate and remedy the said public nuisance, but in no case shall this time exceed 60 days. The findings of the City Council shall be served upon the objecting party either personal service

or certified mail within five days of the finding by the City Clerk or by the Nuisance Officer. The finding of this hearing is final, provided that an interested party or parties may appeal such decision to the appropriate court for adjudication.

(J) If the Nuisance Officer determines the nuisance is not remedied and abated within the time period designated, the city shall cause the abatement of the nuisance.

(K) If an interested party properly appeals to an appropriate court, the findings and orders of the city to an appropriate court, then any orders of abatement of a nuisance or other enforcement shall be stayed until such time that the legal proceedings are concluded.  
(Ord. 1343, passed 6-14-2016)

### **§ 92.23 CRIMINAL PROSECUTION.**

If the declared nuisance, health, and/or sanitation violation is not abated within 15 days that the notice of designation of nuisance by the City Council is served upon the owner and/or occupant, and the City Clerk has not received a request for hearing, the Nuisance Officer may cause the issuance of a citation for the code violation.

(A) The citation shall be prosecuted to the appropriate court by the City Attorney or other designated prosecutor for the city.

(B) Upon a declaration of nuisance and a direction from the City Council to the Nuisance Officer to pursue criminal prosecution of the nuisance, the Nuisance Officer shall issue a criminal citation informing the alleged owner and/or occupant of any real estate declared to be a nuisance in accordance with applicable law governing the issuance and service of citations.

(C) A person or persons found guilty of this section shall be guilty of a misdemeanor and fined up to \$500 per each offense.

Any civil action to enforce the City Code regarding nuisances may be filed and prosecuted at the same time any other enforcement procedure or after any other enforcement procedure has terminated.  
(Ord. 1343, passed 6-14-2016)

### **§ 92.25 EXPENSES OF NUISANCE ABATEMENT OR ENFORCEMENT.**

The billing shall be calculated at the actual cost of abating the

nuisance plus a \$25 administrative fee.

(B) This billing shall be submitted to the last known address of the owner of the nuisance property as found in the County Treasurer's office by regular first-class mail.

(C) If said costs are not paid within two months after the work is done and one month after the expenses and costs are submitted to the owner and/or occupant, the city may levy and assess the expenses and costs upon the real estate benefitted by the actions in the same manner as other special assessments are levied and assessed, and the city may collect said assessments in the same procedure as other special assessments are collected under state law or city ordinance. In addition to any levy or assessment procedures, the city may also recover said expenses and costs of abating the nuisance, health and/or sanitation violation(s) in a civil action in the courts of the appropriate county in the state. ### **GRAFFITI**

#### **§ 94.50 PURPOSE AND FINDINGS.**

(A) The purpose of this subchapter is to prevent the spread of graffiti in the city through measures reasonably calculated to deter graffiti and to encourage and facilitate rapid removal when it occurs.

(B) The City Council makes the following finds in enacting this subchapter.

(1) Graffiti is a form of vandalism defacing public and private property without the consent of the owner,

(2) Graffiti creates visual pollution and blight that adversely affects the enjoyment and value of public and private property and causes citizens, businesses, and the city to incur the cost of removal and repair.

(3) Graffiti is a visual symbol of disorder and lawlessness. It contributes to a downward spiral of blight and decay, decreasing property values, lessening business viability, and potentially adversely affecting tax revenues.

(4) There is substantial evidence that rapid removal of graffiti is an effective prevention strategy that discourages its return. In addition, there is substantial evidence that failure to promptly remove graffiti increases the likelihood that more graffiti will occur on the same site and on other nearby property.

Similarly, it is not the intent nor effect of this chapter to restrict or deny access by adults to sexually-oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually-oriented entertainment to their intended market.

(2) Neither is the intent nor effect of this chapter to condone or legitimize the distribution of obscene material or sexual activities.

(B) *Findings.* Based on convincing documented evidence, studies, findings, and reports concerning the negative secondary effects of sexually-oriented businesses regarding both commercial and residential areas and the nexus between sexually-oriented businesses, obscene materials, and sexual exhibits and alcohol consumption, and illegal drug distribution and use, the City Council finds the following.

(1) Sexually-oriented businesses have negative secondary effects on the existing businesses around them and the surrounding residential areas adjacent to them, causing increased crime, the downgrading of property values, the downgrading of adjacent neighborhoods making adjacent neighborhoods significantly less attractive and less safe for raising children and denigrating both residential life and commercial activity for other types of businesses and sexually-oriented businesses downgrade the quality of life and fitness of property for other uses in areas both immediate and adjacent to such businesses.

(2) The negative secondary effects of sexually-oriented businesses are increased when they are located in close proximity to each other and when the service or consumption of alcohol is permitted at or near such locations.

(3) Improper conduct involving sexual acts occurs at sexually-oriented businesses which provide private or semi-private booths or viewing rooms for the viewing of films, videos, or live performances.

(4) The findings noted above raise substantial governmental concerns for the health, safety, and welfare of the citizens of the city and it is appropriate for the purpose of promoting and protecting the health, safety, and welfare of the citizens of the city particularly the children of the community and those conducting general business that reasonable regulations be enacted so as to address the substantial governmental concerns to minimize and control the negative secondary effects of sexually-oriented

businesses and thereby promote and protect the health, safety, and welfare of the citizens of the city, protect the citizens from increased crime, preserve the value of property, and preserve the quality of life and the quality and character of surrounding neighborhoods for residential and commercial purposes.

(5) The enactment of reasonable regulations of sexually-oriented businesses which involve locational criteria, licensing criteria, operational criteria, and the prohibition of alcohol and illegal substance use are appropriate to address the substantial governmental concerns and protect the health, safety, and welfare of the citizens of the city.

(6) A reasonable licensing procedure and zoning requirements are appropriate mechanisms to place the burden of reasonable regulations on the owners of sexually-oriented businesses and such a licensing procedure will place an incentive on the owners to see that the sexually-oriented business is operated in a manner which is consistent with the health, safety, and welfare of patrons, employees, and citizens of the city.

The wireless facility shall be exempt from the provisions of this article for up to one month after the duration of the state of emergency;
4. A temporary, commercial wireless facility installed for providing coverage of a special event such as news coverage or sporting event, subject to administrative approval by the city. The wireless facility shall be exempt from the provisions of this article for up to two weeks before and one week after the duration of the special event;
5. Antennas attached to existing structures (such as commercial buildings, houses or apartments) for Internet purposes and uses, solely for occupants of the building, for which the antennas are attached as long as the height limitations of the zoning district are not exceeded and the antenna design is satisfactory to the city.

(h) For public safety and welfare considerations, the city discourages wireless providers from placing small wireless facilities on any poles for traffic signals. Instead, the city encourages wireless providers to place small wireless facilities on street lights or elsewhere in the right-of-way. The city also encourages wireless providers to place small wireless facilities on structures or buildings outside of the right-of-way rather than placing new poles in the right-of-way.

(i) The city shall not require an Application, permit or other approval or charge fees or rates where the proposed activities are limited to: (1) routine maintenance of small wireless facilities; (2) replacement of small wireless facilities with small wireless facilities that are substantially similar in weight or windage or the same size or smaller; or (3) for the installation, placement, maintenance, operation, or replacement of microwireless facilities that are strung on cables between existing utility poles in compliance with the National Electrical Safety Code. The city may require a permit for work that exceeds original weight or windage or requires the excavation or closing of sidewalks or vehicular lanes within the right-of-way for such activities.

### ***Licenses***

## **§ 114.05 Permit required.**

It shall be unlawful for any person to install, maintain, or operate a small wireless facility, unless such person shall have previously obtained a permit under this article from the city expressly authorizing such small wireless facility. It shall be unlawful for any person to collocate a small wireless facility on or associated with an existing utility pole or support structure, unless such person shall have previously obtained a permit under this article from the city expressly authorizing the attachment or association of that specific small wireless facility. It shall be unlawful for any person to construct, install, replace, maintain, or operate a new utility pole or support structure, to which will be attached or associated, a small wireless facility, unless such person shall have previously obtained a permit under this article. All small wireless facilities and associated equipment, utility poles, and support structures shall comply with the permit and approved final plans and specifications. In the event of nonconformance with the permit or approved final plans and specifications in any material respect, the city may suspend the associated permit until such time as there is substantial conformance.

## **§ 95.06 Application**

(a) *Form and content.* An application for a permit under this article shall be filed with the Planning and Zoning Administrator (hereinafter referred to as the “Administrator”, on a form provided by the Administrator. On or in addition to that form, an application shall include the following:

1. The applicant's name, address, telephone number, and e-mail address, including emergency contact information for the applicant.
2. The names, addresses, telephone numbers, and e-mail addresses of all consultants, if any, acting on behalf of the applicant with respect to the application.
3. A description of the proposed work and wireless facility sufficient to demonstrate compliance with the criteria in this article.
4. Any and all additional forms and necessary documentation for all permits required for the installation, maintenance, or operation of a small wireless facility, including but not limited to electrical permits, excavation permits, and certificates of approval for facilities within a landmark or historic district.
5. If applicable, documentation or authorization from the owner of the utility pole or wireless support structure on or in which the wireless facility will be placed or attached, if not the city. Alternatively, a wireless provider may satisfy this requirement by providing an attestation with the

application that all required approvals from third parties will be obtained before attaching to a utility pole or wireless support structure owned by a third party.

6. Construction and engineering drawings regarding the proposed small wireless facility, and any associated equipment and utility pole or support structure. The drawings shall show the location, dimensions, elevations, equipment specifications, and attachment methods for the small wireless facility, all equipment, and the utility pole or support structure.
7. For any new above ground wireless facilities, accurate visual depictions or representations, if not included in the construction drawings.
8. A full description of any make-ready work to be performed by the city in preparation for the proposed installation and use of the small wireless facility, associated equipment and utility pole or wireless support structure.
9. The application fee as required by this article.
10. Bonds and insurance coverage as required in this article or by the City Code and as applicable to all users of the right-of-way.
11. The application form shall include:
  - a. Language providing for the indemnification of the city by the applicant, registrant and wireless provider as required by this article; and
  - b. An attestation by the applicant that the small wireless facility shall be operational for use by a wireless services provider within nine months after the later of the completion of all make-ready work or the permit issuance date, unless a delay is caused by a lack of commercial power or communications transport facilities to the site, in which case the deadline shall be extended for up to nine months. The Administrator and applicant may mutually agree to an additional extension.

The applicant's signature on and submittal of the application shall constitute agreement to subsections 11 a. and b. above.

(b) *Other information.* An applicant shall not be required to provide more information to obtain a permit than a communications service provider that is not a wireless provider, except as directly related to the impairment of wireless service in the immediate area of the proposed small wireless facility and except that an applicant may be required to

include construction and engineering drawings and information demonstrating compliance with the Act.

(c) *Batching.* An applicant seeking to collocate small wireless facilities may apply for more than one but no more than five small wireless facilities in a single application, provided that all information required by this article is provided for each separate small wireless facility. Provided full and complete information is submitted for each small wireless facility, a single set of documents may address more than one small wireless facility. Application fees shall be paid for each small wireless facility, as provided in this article. Each small wireless facility within a consolidated application is subject to individual review, except that the denial of one or more small wireless facilities in a consolidated application shall not delay processing of any other small wireless facilities in the same application or be a basis upon which to deny the consolidated application as a whole. A decision regarding all of the applicant's batched wireless facilities shall be rendered in a single administrative proceeding.

(d) *Replacement or modification.* A permittee shall be required to file an application and pay an application fee for the proposed replacement or modification of an existing small wireless facility, antenna equipment, or associated utility pole or support structure. In such case, the application shall include updated drawings of the facilities showing such replacement or modification. Such proposed replacement or modification shall be reviewed and acted upon by the Administrator as if it were an initial application. This subsection (d) does not apply to ordinary maintenance or repair, or to the replacement of a small wireless facility with a small wireless facility that is substantially similar in weight or windage or the same size or smaller, in which case no permit, application or fee is required.

(e) *Shot clocks.* Except as otherwise provided in this subsection, the Administrator shall act on a filed application, and all associated requests, on or before the expiration of the following State shot clock periods.

1. The shot clock period for a small wireless facilities application is the sum of:
  - a. Ninety days, plus an additional ten business days if requested in writing by the Administrator prior to the expiration of the 90 days, plus
  - b. Such additional number of days of the tolling period, if any, pursuant to subsection (e)(2) below.
2. Unless a written agreement between the applicant and the Administrator provides otherwise, the tolling period for an application, if any, is as set forth below:
  - a. If the Administrator notifies the applicant in writing on or before the twentieth day after submission that the application is incomplete,

and specifically identifies the missing documents or information, the shot clock date calculation shall restart on the date the Administrator notifies the applicant of the first finding of incompleteness. The applicant may resubmit the completed application within 30 days without additional charge.

- b. Subsequent findings of incompleteness shall further toll the shot clock from the time the Administrator sends written notice of incompleteness until the time the applicant provides the missing information. The application processing deadline also may be tolled by agreement of the applicant and the Administrator.
  - c. If the applicant submits new or additional documents or information that include material changes not otherwise required by the Administrator, a new application and application fee shall be submitted.
  - d. The Administrator may extend the application processing deadline for a single period of ten business days if the Administrator notifies the applicant in advance before the day on which approval or denial is originally due. Upon mutual agreement between the applicant and the Administrator, the Administrator may extend the period for consideration of an application for thirty days.
3. The shot clock deadline for an application is determined by counting forward, beginning on the day after the date when the application was submitted, by the number of calendar days of the shot clock period identified pursuant to this subsection (e); provided, that if the deadline calculated in this manner falls on a weekend or holiday, the deadline shall be the next business day after such date. The term "business day" means any day that is not a weekend day or holiday.
4. An application shall be processed on a nondiscriminatory basis and deemed approved if the authority fails to approve or deny the application within 90 days after receipt of the application, or such longer period as permitted under this subsection (e).
5. Notwithstanding the provisions above, pursuant to applicable FCC Orders, rulings and Federal law, the Administrator shall act on a small wireless facility application for placement on an existing structure within sixty (60) days of the application submittal and on a small wireless facility application for placement on a new structure within ninety (90) days subject to application incompleteness and tolling. For the foregoing application types, the Administrator must notify an applicant of application incompleteness within ten (10) days. If such a notification

occurs, the corresponding shot clock will be reset one time and thereafter tolling provisions may apply.

6. If Federal law changes regarding the placement of small wireless facilities on an existing structure or a new structure in the right-of-way, then the above time frames in (e)(5) will be automatically amended to reflect the new time period(s) without further action by the Administrator.

(f) *Permit issuance.* Approval of an application and issuance of any required permits, which shall include but not be limited to appropriate building, electrical or excavation permits, authorizes the permittee to maintain and operate the small wireless facilities and any associated utility pole covered by the permit for a period of five years, subject to applicable relocation requirements and the permittee's right to terminate at any time. The Administrator shall renew such permit for an equivalent duration so long as the permittee complies with the criteria of this article as of the time the permit was issued.

(g) *Denial of application.* The Administrator may deny a proposed collocation of a small wireless facility or installation, modification, or replacement of a utility pole that meets the requirements of this article only if the proposed application:

1. Materially and demonstrably interferes with the safe operation of traffic control equipment or the right-of-way;
2. Materially interferes with sight lines or clear zones for air or land transportation or pedestrians;
3. Materially interferes with compliance with the federal Americans with Disabilities Act of 1990 or similar federal or state standards regarding pedestrian access or movement;
4. Fails to comply with reasonable and nondiscriminatory spacing requirements of general application adopted by ordinance or resolution that concern the location of ground-mounted equipment and new utility poles. Such spacing requirements shall not prevent a wireless provider from serving any location;
5. Fails to comply with applicable codes of general application that do not apply exclusively to wireless facilities;
6. Fails to comply with the city's aesthetic requirements that are reasonable and published in advance; or
7. Designates the location of a new utility pole within seven feet in any direction of an electrical conductor unless the wireless provider obtains

the written consent of the public power supplier that owns or manages the electrical conductor.

(h) *Documentation of reason for denial.* The Administrator will document the basis for a denial, including the specific code provisions on which the denial was based, and send the documentation to the applicant on or before the day the Administrator denies an application. The applicant may cure the deficiencies identified by the Administrator and resubmit the application within 30 days of the denial without paying an additional application fee. The Administrator will approve or deny the revised application within 30 days. Any subsequent review will be limited to the deficiencies cited in the denial.

(i) *Scope and effect of approval.* Installation or collocation for which a permit is granted pursuant to this article shall be completed within one year of the later of the completion of all make-ready work or the permit issuance date unless a delay is caused by the lack of commercial power or communications transport facilities at the site. In such case the applicant shall have an extension of up to nine months. The administrator and the applicant may also agree to an additional extension. Applications for collocations on utility poles owned, managed, or operated by the city shall be processed in a manner consistent with the Act. Approval of an application authorizes the applicant to:

1. Undertake the installation or collocation; and
2. Operate and maintain the small wireless facilities and any associated utility pole covered by the permit for a period of not less than five years, subject to applicable relocation requirements and the applicant's right to terminate at any time, which must be renewed for equivalent durations so long as they are in compliance with the criteria set forth in this article as such criteria existed at the time the permit was granted.

(j) *Authority granted; no property right or other interest created.* An approval by the Administrator authorizes an applicant to undertake only certain activities in accordance with this article and does not create a property right or grant authority to the applicant to impinge upon the rights of others who may already have an interest in the right-of-way, utility easement or other privately owned property.

(k) *Appeals.* Any person aggrieved by the decision of the Administrator in regard to the denial of an application shall have the right to appeal to the City Council. Such appeal shall be taken by filing with the City Council within fourteen (14) days after notice of the denial has been mailed to such person's last-known address, a written statement setting forth the grounds for appeal. The City Council shall set the time and place for a hearing on such appeal and notice shall be given to such person by registered mail, postage prepaid, at his or her last-known address. The order of the City Council on such appeal shall be final.

## **§ 114.07 Application fees and rates**

(a) *Application fees.*

1. The application fees for collocation of small wireless facilities on an existing city pole shall be as set forth in the Ogallala Special Fee List.
2. The application fees for the installation, modification or replacement of a utility pole and the collocation of an associated small wireless facility that are a permitted use in accordance with the specifications in the Act shall be as set forth in the Ogallala Special Fee List.

(b) *Annual rates.*

1. An annual rate for use of the city's right-of-way shall be as listed in the City of Ogallala Special Fee Schedule.
2. The rate for collocation of a small wireless facility on a city pole in the right-of-way shall be as set forth in the City of Ogallala Special Fee Schedule.
3. The annual rate(s) shall be paid on or before January 1, in advance for the ensuing year.
4. The city shall not require a wireless provider to pay any rate, fee, or compensation to the city or other person other than what is expressly authorized by Nebraska Revised Statutes Section 86-704, or, where applicable, Nebraska Revised Statutes Sections 14-109, 15-203, 16-205, or 17-525, or the Act for the right to use or occupy a right-of-way for the collocation of small wireless facilities on wireless support structures or utility poles in the right-of-way or for the installation, maintenance, modification, operation, and replacement of utility poles in the right-of-way.
5. If the city charges occupation taxes under Nebraska Revised Statutes Section 86-704, it shall not charge a wireless services provider any additional amount for the use of a right-of-way. The city may charge a wireless provider that does not pay the city's occupation tax under Nebraska Revised Statutes Section 86-704 either a rate of \$250 for each small wireless facility each year, or a fee equal to the occupation tax charged by the city under Nebraska Revised Statutes Sections 14-109, 15-203, 16-205, or 17-525.

***Administration and Enforcement***

**§ 114.08 Make-ready work**

(a) The rates, fees, terms, and conditions for make-ready work to collocate on a city pole shall be nondiscriminatory, competitively neutral, and commercially reasonable and shall reimburse all reasonable costs incurred by the city in compliance with the Act.

(b) The city shall provide a good faith estimate for any make-ready work necessary to enable the city pole to support the requested collocation by an applicant, including pole replacement if necessary, within one hundred twenty days after receipt of a completed application. Make-ready work, including any pole replacement, shall be completed within ninety days after written acceptance of the good faith estimate by the applicant. The city may require replacement of the city pole only if it determines and provides details indicating that the collocation would make the city pole structurally unsound. The city shall have the option to require the applicant to order and install any replacement poles when necessary.

(c) The person owning, managing, or controlling the city pole shall not require more make-ready work than required to meet applicable codes or industry standards. Fees for make-ready work shall not include costs related to known preexisting or prior damage or noncompliance. Fees for make-ready work, including any pole replacement, shall not exceed actual costs or the amount charged to other communications service providers for reasonably similar work and may include reasonable consultant fees or expenses.

(d) For purposes of this Section, make-ready work generally refers to the modification of utility poles or lines or the installation of guys and anchors to accommodate additional facilities.

#### **§ 114.09 No limitation of city's proprietary rights and interests.**

For all small wireless facilities to be located on city property other than right-of-way, the applicant, prior to submitting any application, must have entered into a valid license, lease, or other such agreement, as applicable, with the city. Nothing in this article shall be construed in any way to waive or limit the city's proprietary rights over its real and personal property. If it is determined the city has authority to exert greater rights or impose additional conditions or limitations beyond those set forth in this article, the city reserves the right to do so as it determines appropriate or necessary.

#### **§ 114.10 Design, safety and aesthetic standards within the rights-of-way.**

(a) *Standards.* All deployments of small wireless facilities within the city's rights-of-way must conform to the design and aesthetic standards set forth in this article and as they may be hereafter adopted by the city so long as they are reasonable and published in advance.

(b) *City's Right to Propose Alternative.* With regard to the placement of a utility pole in the right-of-way, the city reserves the right to propose a technically feasible alternate to the location proposed in the application, and the wireless provider shall cooperate with the city to address the city's reasonable proposal. The city shall not require the placement of

small wireless facilities on any specific utility pole or category of poles or require multiple antenna systems on a single utility pole.

(c) *Lighting.* Small wireless facilities may not be illuminated except as otherwise required for compliance with state or federal regulations. To the extent technically feasible, any lights associated with electronic equipment must be down-shielded from public view. This subsection does not prohibit deployments on streetlight poles, nor does it prohibit the installation of deployments designed to look like streetlight poles.

(d) *Color.* To the extent technically feasible, the antennas shall be placed and colored to blend into the architectural detail and coloring of the host structure. To the extent technically feasible, utility poles, wireless support structures and related equipment shall be painted a color that best allows them to blend into the surroundings. The use of grays, blues, greens, dark bronze, browns or other site-specific colors may be appropriate.

(e) *Signs.* No wireless facilities may bear any signage other than that required by law or expressly permitted or required by the City. No wireless facilities may bear any advertisements.

(f) *Nebraska811.* Prior to the installation or construction of a wireless facility within the right-of-way, the wireless provider shall notify and comply with Nebraska811.

(g) *Accessory Equipment.* All accessory equipment located at the base of a utility pole or wireless support structure shall be placed (at the wireless provider's choice) underground or in an equipment cabinet that is designed to blend in with existing surroundings, using architecturally compatible construction and colors consistent with the proper functioning of the wireless facilities.

(h) *Maps and As-Builts.* The wireless provider shall furnish to the City both paper and electronic maps showing the location of its equipment in the right-of-way and as-builts after construction is completed.

(i) *Security.* All equipment cabinets, boxes, cases, covers, or similar enclosures associated with a deployment must be reasonably secured in a manner which prevents unauthorized access.

(j) *Utilities.* All utilities serving a deployment should be installed underground to the maximum extent possible, provided doing so is technically feasible.

(k) *Safety.* All construction, excavation, maintenance, operation, repair and removal work done by the permittee or wireless provider shall be done in a safe, workmanlike and expeditious manner which minimizes inconvenience to the city and the general public. The city shall have the right to inspect all such work to ensure compliance with applicable codes, laws and permits and may order the permittee or wireless provider to perform corrective work. If the permittee or wireless provider fails to timely do so after written notice

from the city, the city may take the required action, and the permittee or wireless provider shall pay the city the reasonable documented cost of such action and associated attorneys' fees.

(l) *Antennas.* If technically feasible, antennas must either be mounted to the top of the utility pole or wireless support structure and aligned with the centerline of the utility pole or wireless support structure or mounted to the side of the utility pole or wireless support structure such that the vertical centerline of the antenna enclosure lines up with the utility pole or wireless support structure. If technically feasible, a side-mounted antenna must be placed at least 25 feet above ground level at its lowest point for safety reasons.

(m) *Cables and Wires.* External cables and wires related to deployments must not hang off the utility pole or wireless support structure. Excess cables or wires may not be spooled or otherwise visibly stored on or near the deployment except within the structure or other enclosure. New service lines must be placed underground whenever technically feasible.

(n) *Alignment.* If technically feasible, new deployments should be placed in alignment with existing trees and utility poles relative to the width of the right-of-way and equidistant between existing trees and utility poles, with a minimum of 15 feet separation from any existing tree.

(o) *Restrictions on Placement.* No deployment may impede, obstruct, or hinder public pedestrian or vehicular traffic; obstruct the legal use of a right-of-way by a utility provider; violate or conflict with city code or state or federal laws or regulations; or be placed in a manner that negatively affects the structural integrity of the associated wireless support structure or utility pole. If technically feasible, a new structure should not be placed in line with the centerline of an entrance or window of a commercial building or residence.

(p) *Ground-mounted Equipment.* Outdoor ground-mounted equipment serving a deployment should be avoided to the greatest extent technically feasible, and any such equipment or structures mounted on the ground should be similar in character to adjacent deployments in the right-of-way and the surrounding environment.

(q) *Pole-mounted Equipment.* To the extent technically feasible, all deployments installed on utility poles should: (1) be installed to minimize impacts to the visual profile; (2) be painted, color-blended, or coated in flat, non-reflective colors to reasonably match the utility pole; and (3) must not unreasonably obstruct the view of vehicular or pedestrian traffic signals or road signs. In the case of existing wood utility poles, finishes of conduit may be zinc, aluminum, or stainless steel, or colored to match those metal finishes, and equipment cabinets may be the color of brushed aluminum, all to the extent technically feasible.

(r) *New Poles.* If technically feasible, new poles installed to support deployments must be made of the same or similar material as existing utility poles in the immediate area. To the extent technically feasible, new poles must be designed to match the existing light fixtures and other poles.

(s) *Historic Districts.* Small wireless facilities installed in historic districts established prior to January 1, 2019 shall be of such design or concealment measures that they reasonably blend in with the character of the historic districts.

## **§ 114.11 Additional regulations**

All small wireless facilities must conform to the additional regulations set forth in this section, and the city's approval of any application shall be conditioned upon the applicant's continued compliance with these regulations.

(a) *Compliance.* To protect the public safety, all small wireless facilities must be constructed, operated, maintained, repaired, and removed in compliance with all applicable provisions of this article, the Act and applicable federal and local laws. Any failure by the city to enforce compliance with any applicable laws shall not relieve any applicant or owner of its obligations.

(b) *Insurance.* No person or entity may own or operate a small wireless facility within the city or its extraterritorial jurisdiction, if any, without having secured, and at all times maintained, insurance coverage which conforms to the following:

1. Comprehensive general liability, automobile, workers compensation, and employer's liability of not less than \$1,000,000 each occurrence and \$2,000,000 aggregate (an umbrella policy is an acceptable means of reaching the minimum limits);
2. For a small wireless facility in the public right-of-way or on city property, the comprehensive general liability insurance and automobile policies must specifically include the city as an additional insured;
3. All insurance policies must be issued by an agent or representative of an insurance company licensed to do business in Nebraska and with a Best's rating of at least A; and
4. Policies must include a minimum Medical Expense amount of \$5,000 per person.

(c) *Indemnification.* Each permit issued for a small wireless facility located on city property or in the right-of-way shall be deemed to have as a condition of the permit a requirement that the applicant, registrant and wireless provider defend, indemnify and hold harmless the city and its officers, agents, employees, volunteers, and contractors from any and all liability, damages, or charges (including attorneys' fees and expenses) arising out of claims, suits, demands, actions or causes of action as a result of the permit process, a

granted permit, construction, installation, location, performance, operation, maintenance, repair, replacement, removal, or restoration of the small wireless facility.

(d) *Abandoned and Discontinued Small Wireless Facility.* Any small wireless facility that is not operated for a continuous period of ninety days after completion of initial installation, excluding non-operation due to a natural disaster or other unforeseeable circumstance or temporary equipment failure, shall be considered abandoned. If a small wireless facility is abandoned, the small wireless facility owner shall notify the city within thirty days of the abandoned status of such facility and such owner shall remove the abandoned facility at the owner's expense. The related utility pole shall also be removed unless such pole is otherwise being used by another utility or is owned by a party other than the owner of the removed small wireless facility.

(e) *Removal.*

1. In the event that any wireless facility of a permittee or wireless provider in city right-of-way obstructs or hinders the usual travel or public safety or obstructs the legal use of such right-of-way by utilities or other authorized users, the city may provide written notice to the permittee or wireless provider of such physical interference and of the need to resolve such interference. If such physical interference is not resolved in a timely manner, the permittee or wireless provider shall, at its own expense, remove its wireless facilities from that location. In such case, the permittee or wireless provider may apply for the relocation of similar facilities at another location, without payment of an application fee.
2. Within ninety days following written notice from the city, the permittee or wireless provider shall, at its own expense, protect, support, disconnect, remove, relocate, change or alter the position of any of its wireless facilities whenever the city has determined, in its sole discretion, that such disconnection, removal, relocation, change or alteration is necessary for the construction, repair, maintenance or installation of any city improvement, in, under or upon the public right-of-way. The permittee or wireless provider shall be responsible to the city for any damages or penalties the city may incur as a result of the permittee's or wireless provider's failure to adhere to any of the requirements of this subsection.
3. If the permittee or wireless provider fails to timely perform any of the requirements or its obligations under this Section, the city or its contractor may do so. In such case, the permittee or wireless provider shall pay all reasonable costs and attorneys' fees related to such work.

(f) *Remediation Required.* A wireless provider must repair, at its sole cost and expense, any damage to the right-of-way caused by its activities in the right-of-way. The

wireless provider must return the right-of-way to equal or better condition to that as existed prior to the damage pursuant to competitively neutral and reasonable requirements and specifications of the city. If the applicant, permittee or wireless provider fails to make the repairs that are reasonably required by the city within fourteen days after written notice, the city may undertake such repairs and charge the wireless provider the reasonable, documented cost of such repairs. The city shall grant an extension of up to ten days to complete such repairs if the wireless provider requests such extension within the original fourteen-day period. In the event of immediate threat to life, safety, or to prevent serious injury, the city may immediately undertake to restore the site and then notify the applicant, permittee or wireless provider and charge the applicant, permittee or wireless provider for all reasonable restoration costs.

(g) *Emergency Removal or Relocation.* The city retains the right to cut or move any small wireless facility or poles located within the right-of-way, as the city may determine to be necessary, appropriate, or useful in response to any public emergency. If circumstances permit, the city will notify the wireless provider and provide it an opportunity to move its small wireless facility or poles prior to cutting or removing them and shall notify the wireless provider after cutting or removing a small wireless facility or pole.

(h) *Structural Report.* To the extent the small wireless facility involves collocation on a pole or support structure, a structural report prepared by a licensed professional engineer is required evidencing that the pole or support structure will support the collocation (or that the pole or support structure will be modified to meet structural requirements) in accordance with applicable codes and safety standards.

(i) *Radio Frequency (RF) Emissions Compliance Report.* To protect the public safety and welfare and be responsive to its citizens, the city may require a written report prepared, signed and sealed by a licensed professional engineer which assesses whether the operations of the small wireless facilities demonstrate compliance within the RF emissions limits established by the FCC. In no event shall any small wireless facilities, either individually or collectively with those of others, exceed the maximum permissible RF emission standards of the FCC. In the event that the FCC's maximum permissible RF emission standards are exceeded as determined by the FCC, the city shall refer the matter to the FCC for enforcement.

(j) *Electrical Permit.* The applicant shall obtain an electrical permit from the State of Nebraska prior to any electrical work being done on any wireless facility. Before obtaining an electrical permit, the electrical contractor shall be properly licensed by the State of Nebraska Electrical Board (Ogallala City Code Sec. 150-17).

## **§ 114.12 Exceptions to standards**

No small wireless facility can be used or developed contrary to any provision of this article, unless an exception is authorized herein and has been granted pursuant to this section.

(a) *Approval Authority.* The Planning and Zoning Administrator is the approval authority for all exceptions requested by an applicant. If the Planning and Zoning Administrator denies the exception request, then within fourteen (14) days the applicant may submit a written request to the city council to review the request and approve or deny it.

(b) *Submittal Requirements.* A request for an exception under this section shall include:

1. A written statement which (a) identifies the standard for which an exception is requested; (b) describes the proposed manner in which the application deviates from the standard; and (c) provides a thorough explanation of the technical, commercial, or other justifications demonstrating the necessity of the exception requested.
2. A site plan which:
  - a. Describes the proposed small wireless facility's design and dimensions, as it would appear with and without the exception;
  - b. Includes elevations showing all components of the small wireless facility, as it would appear with and without the exception; and
  - c. Includes color simulations of the small wireless facility after construction demonstrating compatibility with the surrounding environment, as it would appear with and without the exception.

(c) *Criteria.* The Planning and Zoning Administrator will consider the following in determining whether to grant an exception requested hereunder:

1. Whether the exception is consistent with the purpose of the standard for which the exception is sought; and
2. Whether the alternative proposed as an exception to the standard otherwise minimizes the visual impact to the site and surrounding area to the greatest extent feasible.

### **§ 114.13 Violation of this article**

Violation of any of the provisions of this article shall be punishable by a fine of up to \$500 for each violation. Each day that a violation occurs or is allowed to exist by the applicant or wireless provider constitutes a separate offense.

#### **§ 114.14 Laws, rules and regulations**

This Ordinance shall be subject to all applicable laws, rules and regulations now or hereafter enacted.

#### **§ 114.15 Severability.**

The various parts, sentences, paragraphs, sections and clauses of this Ordinance are hereby declared to be severable. If any part, sentence, paragraph, section or clause is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of the Ordinance shall not be affected thereby.

#### **§ 114.16 Conflicts**

In the event of a conflict between the provisions of Federal law and the Act, the more restrictive shall control. Any local ordinance or part thereof in conflict with the provisions of this Ordinance is hereby repealed to the extent of such conflict.

#### **§ 114.99 PENALTY.**

(1) *Prohibited location of residence.* It is unlawful for any sexual predator to reside within 500 feet from a school or child care facility.

(a) Resides within a prison or correctional or treatment facility operated by the state or a political subdivision;

***GENERAL PROVISIONS***

**§ 151.01 STATUTORY AUTHORIZATION.**

The Nebraska State Legislature has in Neb. RS 31-1001 to 31-1022, R.R.S. 1943 assigned the responsibility to local governmental units to adopt floodplain management regulations designed to protect the public health, safety, and general welfare. Therefore, the City Council ordains as follows. (2007 Code, § 20-101)

**§ 151.02 FINDINGS OF FACT.**

(A) *Flood losses resulting from periodic inundation.* The flood hazard areas of the city are subject to inundation which results in loss of life and property, health, and safety hazards; disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief; and impairment of the tax base all of which adversely affect the public health, safety, and general welfare.

(B) *General causes of flood losses.* These flood losses are caused by:

(1) The cumulative effect of obstructions in floodplains causing increases in flood heights and velocities; or

(2) The occupancy of flood hazard areas by uses vulnerable to floods or hazardous to others, which are inadequately elevated or otherwise unprotected from flood damages.  
(2007 Code, § 20-102)

### **§ 151.03 STATEMENT OF PURPOSE.**

It is the purpose of this chapter to promote the public health, safety, and general welfare and to minimize those losses described in § 151.02(A) by applying the provisions of this chapter to:

(A) Restrict or prohibit uses which are dangerous to health, safety, or property in times of flooding or cause undue increases in flood heights or velocities;

(B) Require that uses vulnerable to floods, including public facilities which serve such uses, be provided with flood protection at the time of initial construction;

(C) Protect individuals from buying lands which are unsuited for intended purposes because of flood hazard; and

(D) Assure that eligibility is maintained for property owners in the community to purchase flood insurance in the National Flood Insurance Program.  
(2007 Code, § 20-103)

### **§ 151.04 ABROGATION AND GREATER RESTRICTIONS.**

It is not intended by this chapter to repeal, abrogate, or impair any existent easements, covenants, or deed restrictions, however, where this chapter imposes greater restrictions, the provision of this chapter shall prevail. All other ordinances/resolutions inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.  
(2007 Code, § 20-104)

### **§ 151.05 INTERPRETATION.**

In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by state statutes.  
(2007 Code, § 20-105)

### **§ 151.06 CONFLICTING ORDINANCES.**

This chapter shall take precedence over conflicting ordinances/resolutions or parts of ordinances/resolutions. The City Council may, from time to time, amend this chapter to reflect any and all changes in the National Flood Disaster Protection Act of 1973. The regulations of this chapter are in compliance with the National Flood Insurance Program Regulations as published in Title 44 of the Code of Federal Regulations and the 1983 Nebraska Floodplain Management Act.

(2007 Code, § 20-106)

### **§ 151.07 WARNING AND DISCLAIMER OF LIABILITY.**

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on engineering and scientific methods of study. Larger floods may occur on rare occasions or the flood height may be increased by human-made or natural causes, such as ice jams and bridge openings restricted by debris. This chapter does not imply that areas outside floodplain district boundaries or land uses permitted within such districts will be free from flooding or flood damage. This chapter shall not create liability on the part of the city or any officer or employee thereof for any flood damages that may result from reliance on this chapter or any administrative decision lawfully made thereunder.

(2007 Code, § 20-107)

### **§ 151.08 DEFINITIONS.**

Unless specifically defined below, words or phrases used in this chapter shall be interpreted so as to give them the same meaning as they have in common usage and so as to give this chapter its most reasonable application.

The term **MOBILE HOME PARK** shall not be construed to include mobile homes, buildings, tents, and other structures temporarily maintained by any individual, corporation, company, or other entity on its own premises and used exclusively to house its own labor force.

**NEW CONSTRUCTION.** For floodplain management purposes, structures for which the start of construction commenced on or after the effective date of the floodplain management regulation adopted by a community and includes any subsequent improvements to such structures.

**NEW MOBILE HOME PARK OR SUBDIVISION.** A mobile home park or subdivision for which the construction of facilities for servicing the lots on which the mobile homes are to be affixed (including at a minimum the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by a community.

**100-YEAR FLOOD.** The condition of flooding having a 1% chance of annual occurrence.

**PRINCIPALLY ABOVE GROUND.** At least 51% of the actual cash value of the structure is above ground.

**RECREATIONAL VEHICLE.** A vehicle which is:

- (1) Built on a single chassis;
- (2) Four hundred square feet or less when measured at the largest horizontal projection;
- (3) Designed to be self-propelled or permanently towable by a light duty truck; and
- (4) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

**REGULATORY FLOOD ELEVATION.** The water surface elevation of the 100-year flood.

**SPECIAL FLOOD HAZARD AREA.** The land in the floodplain within a community subject to 1% or greater chance of flooding in any given year.

**START OF CONSTRUCTION.** (For other than new construction or substantial improvements under the Coastal Barrier Resources Act (Pub. Law No. 97-348). Includes substantial improvement, and means the date the building permit was issued, provided, the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The **ACTUAL START** means the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a mobile home on a foundation. Permanent construction does not include land preparation, such as clearing, grading, and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the **ACTUAL START OF CONSTRUCTION** means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not the alteration affects the external dimensions of the building.

**STRUCTURE.** A walled and roofed building that is principally above ground, as well as a mobile home, and a gas or liquid storage tank that is principally above ground.

**SUBSTANTIAL DAMAGE.** Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50% of the market value of the structure before the damage occurred.

**SUBSTANTIAL IMPROVEMENT.**

(1) Any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50% of the market value of the structure before start of construction of the improvement. This includes structures which have incurred substantial damage, regardless of the actual repair work performed.

(2) The term does not, however, include either:

(a) Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or

(b) Any alteration of a historic structure; provided, that the alteration will not preclude the structure's continued designation as a historic structure.

**VARIANCE.** A grant of relief to a person from the terms of a floodplain management ordinance.

**VIOLATION.** The failure of a structure or other development to be fully compliant with the community's floodplain management regulations.  
(2007 Code, § 20-108)

**FLOOD HAZARD REGULATIONS**

**§ 151.20 LOCAL ADMINISTRATOR RESPONSIBILITIES.**

(A) *Local Administrator responsibilities.* The Building Inspector hereby has these added responsibilities and is authorized and directed to enforce all of the provisions of this chapter and all other ordinances or resolutions of the city now in force or hereafter adopted, related to zoning, subdivision, or building codes.  
(2007 Code, § 20-201)

(B) *Local Administrator additional responsibilities.* The Building Inspector shall be appointed to these additional responsibilities by resolution of the City Council and his or her appointment shall continue during good behavior and satisfactory service. During temporary absence or disability of the Building Inspector, the City Council shall designate an acting Administrator.  
(2007 Code, § 20-202)

**§ 151.21 DESIGNATION OF CURRENT FHMB/FIRM.**

The City Council hereby designates the current flood hazard boundary map/flood insurance rate map and any revisions thereto, as the official map dated September 30, 2005 to be used in determining those areas of special flood hazard.  
(2007 Code, § 20-203)

### **§ 151.22 PERMITS REQUIRED.**

No person, firm, or corporation shall initiate any floodplain development or substantial improvement or cause the same to be done without first obtaining a separate permit for development as defined in this chapter.

(A) *Separate permits.* Within special flood hazard areas on the official map, separate floodplain development permits are required for all new construction, substantial improvements, and other developments, including the placement of mobile homes.

(B) *Application.*

(1) To obtain a floodplain development permit, the applicant shall first file an application therefor, in writing on a form furnished for that purpose.

(2) Every such application shall:

(a) Identify and describe the development to be covered by the floodplain development permit for which application is made;

(b) Describe the land on which the proposed development is to be done by lot, block, tract, and house and street address, or similar description that will readily identify and definitely locate the proposed building or development;

(c) Indicate the use or occupancy for which the proposed development is intended;

(d) Be accompanied by plans and specifications for proposed construction;

(e) Be signed by the permittee or his or her authorized agent who may be required to submit evidence to indicate such authority;

(f) Within designated floodplain areas, be accompanied by elevations of the lowest floor, including basement, or in the case of flood-proofed nonresidential structures, the elevation to which it shall be flood-proofed. Documentation or certification of such elevations will be maintained by the Building Inspector; and

(g) Give such other information as reasonably may be required by the Building Inspector (such as, a statement from the applicant that they are aware that elevating or flood-proofing structures above the minimum levels will result in premium reduction, especially in the case of nonresidential flood-proofing when a minus one foot penalty is assessed at the time of rating the structure for the policy premium).

(2007 Code, § 20-204)

### **§ 151.23 DEVELOPMENT PERMIT APPLICATIONS REVIEW.**

The Building Inspector shall review all development permit applications to determine if the site of the proposed development is reasonably safe from flooding and that all necessary permits have been received as required by federal or state law.  
(2007 Code, § 20-205)

#### **§ 151.24 ALL APPLICATIONS REVIEW.**

The Building Inspector, in reviewing all applications for new construction, substantial improvements, prefabricated buildings, placement of mobile homes and other developments will:

(A) Obtain, review, and reasonably utilize, if available, any regulatory flood elevation data and floodway data available from federal, state or other sources, until such other data is provided by the Federal Insurance Administration in a flood insurance study; and require within special flood hazard areas on the official map that the following performance standards be met.

(1) *Floodway designation.* Until a floodway has been designated no development or substantial improvement may be permitted within the identified floodplain unless the applicant has demonstrated that the proposed development or substantial improvement, when combined with all other existing and reasonably anticipated developments or substantial improvements, will not increase the water surface elevation of the 100-year flood more than one foot at any location.

(2) *Residential construction.* New construction or substantial improvement of any residential structure shall have the lowest floor, including basement, elevated at least one foot above the base flood elevation.

(3) *Nonresidential construction.* New construction or substantial improvement of any commercial, industrial, or other nonresidential structure shall either have the lowest floor, including basement, elevated at least one foot above the base flood elevation or, together with attendant utility and sanitary facilities, be flood-proofed so that below such a level the structure is water-tight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this division (A)(3) are satisfied. Such certification shall be provided to the Local Administrator.

(4) *Require for all new construction and substantial improvements.* That fully enclosed areas below the lowest floor that are usable solely for parking of vehicles, building access, or storage in an area other than a basement and which are subject to flooding, shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria: a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

(B) Require the use of construction materials that are resistant to flood damage;

(C) Require the use of construction methods and practices that will minimize flood damage;

(D) Require that new structures be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;

(E) New structures be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

(F) (1) Assure that all mobile homes shall be anchored to resist flotation, collapse, or lateral movement. Mobile homes must be anchored in accordance with state laws, local building codes, and FEMA guidelines.

(2) In the event that over-the-top frame ties to ground anchors are used, the following specific requirements (or their equivalent) shall be met:

(a) Over-the-top ties shall be provided at each of the four corners of the mobile home with two additional ties per side at the intermediate locations and mobile homes less than 50 feet long requiring one additional tie per side;

(b) Frame ties shall be provided at each corner of the home with five additional ties per side at intermediate points and mobile homes less than 50 feet long requiring four additional ties per side;

(c) All components of the anchoring system be capable of carrying a force of 4,800 pounds; and

(d) Any additions to mobile homes be similarly anchored.

(G) Assure that all mobile homes that are placed or substantially improved within special flood hazard areas on the community's official map on sites:

(1) Outside of a mobile home park or subdivision;

(2) In a new mobile home park or subdivision;

(3) In an expansion to an existing mobile home park or subdivision; or

(4) In an existing mobile home park or subdivision on which a mobile home has incurred "substantial damage" as the result of a flood, be elevated on a permanent foundation such that the lowest floor of the mobile home is elevated at least one foot above the base flood elevation and be securely anchored to an adequately anchored foundation system in accordance with the provisions of division (F) above;

(H) Assure that mobile homes to be placed or substantially improved on sites in an existing mobile home park or subdivision within special flood hazard areas on the community's official map that are not subject to the provisions of division (G) above be elevated so that either:

(1) The lowest floor of the mobile home is at least one foot above the base flood elevation; or

(2) The mobile home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above grade and be securely anchored to an adequately anchored foundation system in accordance with the provisions of division (F) above.

(I) Require that recreational vehicles placed on sites within the identified special flood hazard areas on the community's official map either:

(1) Be on the site for fewer than 180 consecutive days;

(2) Be fully licensed and ready for highway use; or

(3) (a) Meet the permit requirements and the elevation and anchoring requirements for mobile homes of this chapter.

(b) A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions.

(2007 Code, § 20-206)

#### **§ 151.25 SUBDIVISION APPLICATIONS.**

The City Council shall review all subdivision applications and other proposed new developments (including mobile home parks or subdivisions) and shall make findings of fact and assure that:

(A) All such proposed developments are consistent with the need to minimize flood damage;

(B) Subdivision proposals and other proposed new developments (including proposals for mobile home parks and subdivisions), greater than five acres or 50 lots, whichever is lesser, include within such proposals regulatory flood elevation data in special flood hazard areas;

(C) Adequate drainage is provided so as to reduce exposure to flood hazards; and

(D) All public utilities and facilities are located so as to minimize or eliminate flood damage.  
(2007 Code, § 20-207)

#### **§ 151.26 WATER SEWAGE SYSTEM.**

New and replacement water and sewage systems shall be constructed to eliminate or minimize infiltration by, or discharge into floodwaters. Moreover, on-site waste disposal systems will be designed to avoid impairment or contamination during flooding.

(2007 Code, § 20-208)

#### **§ 151.27 CONSTRUCTION OF APPURTENANT STRUCTURE.**

Appurtenant structures used exclusively for storage of motor vehicles and storage of other items readily removable in the event of a flood warning may have their lowest floor below one foot above the base flood elevation, provided, the structure is capable of withstanding hydrostatic and hydrodynamic forces caused by the base flood and; provided, that no utilities are installed in the structure except elevated or flood-proofed electrical fixtures. If the structure is converted to another use, it must be brought into full compliance with the minimum standards governing such use.

(2007 Code, § 20-209)

#### **§ 151.28 STORAGE OF MATERIAL AND EQUIPMENT.**

The storage or processing of materials that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal, or plant life is prohibited. Storage of other material or equipment may be allowed if not subject to major damage by floods and firmly anchored to prevent flotation or if

readily removable from the area within the time available after flood warning.  
(2007 Code, § 20-210)

### **§ 151.29 CARRYING CAPACITY WITHIN ANY WATERCOURSE.**

The City Council will ensure that the flood-carrying capacity within the altered or relocated portion of any watercourse is maintained. The city will notify, in riverine situations, adjacent communities and the State Coordinating Office (Nebraska Natural Resources Commission) prior to any alteration or relocation of a watercourse, and submit copies of such notifications to the Federal Emergency Management Agency. Moreover, the city will work with appropriate state and federal agencies in every way possible in complying with the National Flood Insurance Program in accordance with the National Disaster Protection Act of 1973.  
(2007 Code, § 20-211)

### **§ 151.30 VARIANCE PROCEDURE.**

(A) *City Council to decide as follows.*

(1) The City Council as established by the city shall hear and decide appeals and requests for variances from the requirements of this chapter.

(2) The City Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Building Inspector in the enforcement or administration of this chapter.

(B) *Appeal of Council decision.* Any person aggrieved by the decision of the City Council or any taxpayer may appeal such decision to the District Court as provided in Neb. RS 19-912.

(C) *Factors.* In passing upon such applications, the City Council shall consider all technical evaluation, all relevant factors, standards specified in other sections of this chapter:

- (1) The danger that materials may be swept onto other lands to the injury of others;
- (2) The danger to life and property due to flooding or erosion damage;
- (3) The susceptibility of proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
- (4) The importance of the services provided by the proposed facility to the community;
- (5) The necessity to the facility of a waterfront location, where applicable;
- (6) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use;
- (7) The compatibility of the proposed use with existing and anticipated development;
- (8) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;

(9) The safety of access to the property in times of flood for ordinary and emergency vehicles;

(10) The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site; and

(11) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.

(D) *Conditions for variances.*

(1) Generally variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing divisions (D)(2) through (D)(5) below have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.

(2) Variances may be issued for the repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

(3) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

(4) Variances shall only be issued upon the following:

(a) A showing of good and sufficient cause;

(b) A determination that failure to grant the variance would result in exceptional hardship to the applicant; and

(c) A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances/resolutions.

(5) The applicant shall be given a written notice over the signature of a community official that:

(a) The issuance of a variance to construct a structure below base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100,000 of insurance coverage; and

(b) Such construction below the base flood level increases risks to life and property. Such notification shall be maintained with the record of all variance actions as required by this chapter. (2007 Code, § 20-212)

**§ 151.31 APPEAL.**

Where a request for a permit to develop or a variance is denied by the Building Inspector, the applicant may apply for such permit or variance directly to the Board of Appeals. (2007 Code, § 20-213)

### § 151.32 NONCONFORMING USE.

(A) A structure or the use of a structure or premises which was lawful before the passage or amendment of the chapter, but which is not in conformity with the provisions of this chapter may be continued subject to the following conditions.

(1) If such use is discontinued for 12 consecutive months, any future use of the building premises shall conform to this chapter. The Utility Department shall notify the Building Inspector in writing of instances of nonconforming uses where utility services have been discontinued for a period of 12 months.

(2) Uses or adjuncts thereof which are or become nuisances shall not be entitled to continue as non-conforming uses.

(B) If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than 50% of the market value of the structure before the damage occurred, except that if it is reconstructed in conformity with the provisions of this chapter. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building, or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.  
(2007 Code, § 20-214)

### § 151.99 PENALTY.

(A) *Penalty amounts.* Any person who violates any of the prohibitions or provisions of any section of this chapter shall be deemed guilty of a misdemeanor. Unless otherwise specified in this chapter or by statute, the penalty for such violation shall be in any amount not to exceed \$1,000, in the discretion of the court; and, provided, whenever any section of this chapter shall declare a nuisance, a violation of that section shall be penalized by a fine of not more than \$1,000, in which case a new violation shall be deemed to have been committed every 24 hours of such failure to comply.

(B) *Abatement of nuisance.*

(1) Whenever a nuisance exists as defined in this chapter, the city may proceed by a suit in equity to enjoin and abate the same, in the manner provided by law.

(2) Whenever in any action it is established that a nuisance exists, the court may, together with the fine or penalty imposed, enter an order of abatement as a part of the judgment in the case.

(C) *Restitution.* The court may, together with the fine or penalty imposed, enter an order of restitution as part of the judgment in the case.

**MOBILE HOME.** A movable or portable dwelling constructed to be towed on its own chassis, connected to utilities, and designed with or without a permanent foundation for year-round living. It may consist of one or more units that can be telescoped when towed and expanded later for additional capacity, or of two or more units, separately towable but designed to be joined into one integral unit, and shall include a manufactured home as defined in Neb. RS 71-4603. In addition, any **MOBILE HOME** moved into the zoning jurisdiction of the city after March 1, 2002 shall bear a label certifying that it was built to compliance with National Mobile Home Construction and Safety Standards, 24 C.F.R. pt. 3280, promulgated by the U.S. Department of Housing and Urban Development, or a modular housing unit as defined in Neb. The term **MOBILE HOME PARK** shall not be construed to include mobile homes, buildings, tents, and other structures temporarily maintained by any individual, corporation, company, or other entity on its own premises and used exclusively to house its own labor force.

**MOBILE HOME PARK DRIVES.** Lanes and roadways within the mobile home park, privately owned.

**MOBILE HOME STAND.** The area of a mobile home lot which has been reserved for the placement of a mobile home.

**MODULAR HOME.** A dwelling made up of several pieces, consisting of standard “modules” transported to or constructed at the site and generally not distinguishable from conventional permanent

(2007 Code, § 26-102)

### **§ 153.03 ADMINISTRATION AND ENFORCEMENT.**

(A) *Enforcement authority.*

(1) It is hereby made the duty of the Building Inspector to enforce all provisions of this chapter, except licensing as prescribed herein.

(2) For the purpose of securing such enforcement, the Building Inspector or his or her duly authorized representatives shall have the right, and are hereby empowered, to enter any premises on which any mobile homes or travel trailers are located, or are about to be located, and to inspect the same and all accommodations connected therewith at any reasonable time.  
(2007 Code, § 26-501)

(B) *Conflicting provisions.* Whenever the requirements of this chapter are at variance with the requirements of any other lawfully adopted rules, regulations, ordinances, deed restrictions, or covenants, the most restrictive or the higher standard shall govern.  
(2007 Code, § 26-502)

(C) *Violations.* Any person who shall violate any provisions of this chapter or any person continuing to operate a mobile home park under an expired or revoked license shall be subject to the penalty provided for in § 152.99. Each offense shall be deemed to be a separate violation and punishable as a separate offense. Each day for which the violation continues shall constitute a separate offense.  
(2007 Code, § 26-503)  
Penalty, see § 152.99

## ***LICENSES, CERTIFICATES, AND PERMITS***

### **§ 152.15 MOBILE HOME PARK LICENSE; FEES.**

(A) *License required.*

(1) It shall be unlawful for any person to establish, operate, maintain, or permit to be established, operated, or maintained, upon any property owned or controlled by such person, a mobile home park within the zoning and planning jurisdictional boundaries of the city without having first secured a license from the City Clerk.

(2) Prior to the issuance of the initial license for a mobile home park, the City Clerk shall receive from the Building Inspector a copy of a certificate of occupancy indicating that the park is in compliance with the provisions of this part.

(3) The certificate of occupancy shall be attached to the license register of said park and a copy shall be maintained on file in the office of the City Clerk. All licenses shall expire on July 31. Application for license renewal shall be made at least 30 days prior to expiration of the original license.

(B) *Application; fee.*

(1) The application for such license or the renewal thereof shall be filed with the City Clerk and shall be accompanied by the annual fee as set by the Council by resolution, a copy of which shall be kept on file and available in the office of the City Clerk.

(2) The cost of any license secured having less than six months to run before the expiration date as herein provided shall be reduced by 50%.

(3) The application for a license or a renewal thereof shall be made on forms furnished by the City Clerk and shall include the name, address, and signature of the applicant, if other than the owner; and the legal description of the premises upon which the mobile home park is or will be located.

(C) *Park plan approval required.* No license may be issued for a mobile home park unless the plans for such park have been approved according to the requirements of this part.

(D) *Taxes.* No license may be issued for a mobile home park unless evidence is presented to show that the applicant has paid all real estate taxes, personal property taxes, and special assessments due and owing on all personal property and real estate owned by the applicant within the mobile home park.

(E) *Revocation and suspension.*

(1) It shall be the responsibility of the licensee to ensure that all requirements of this part are met and maintained. Any mobile home park issued an initial license after adoption of this part that is found to be in violation of any provisions of this subchapter shall be notified by the Building Inspector to cease such violation within a ten-day time period.

(2) If, after such time period has elapsed, the violation has not ceased, the Building Inspector shall forward a notice of license revocation to the owner of the mobile home park. No future licenses or permits shall be issued to the mobile home park until said violation ceases.

(2007 Code, § 26-201) Penalty, see § 152.99

## **§ 152.16 MOBILE HOME PARK ALTERATION PERMIT.**

(A) *Permit required.* No plans and specifications to construct, expand, remodel, or make alterations upon a mobile home park and the appurtenances thereto shall be approved unless application is made to the City Building Inspector for an appropriate permit.

(B) *Denial of application.*

(1) If the application for a permit to construct, expand, remodel, or make alteration upon a mobile home park and the appurtenances thereto is denied by the Building Inspector, the Building Inspector shall so state in writing giving the reasons for denying the application.

(2) If the objection can be corrected, the applicant may amend his or her application and resubmit it for approval.  
(2007 Code, § 26-202)

#### **§ 152.17 MOBILE HOME PERMIT.**

(2) An addition to increase the floor area of a mobile home within the mobile home park may be permitted if the construction is equal to or better than that of the mobile home. Application for permits for such additions shall also be filed with the City Clerk.  
(2007 Code, § 26-203)

#### **§ 152.18 MOBILE HOME PARK CERTIFICATE OF OCCUPANCY.**

(A) All improvements required in this subchapter shall be completed for the area being developed for occupancy by mobile homes in accordance with the requirements of this subchapter prior to issuance of a certificate of occupancy.

(B) No mobile home may be placed on an individual mobile home lot which does not front on an improved street or drive or does not have all improvements completed for that mobile home lot.  
(2007 Code, § 26-204) Penalty, see § 152.99

### ***PARK PLANS***

#### **§ 152.30 PLANS REQUIRED; FEES.**
