**Care Notebook for Families
with Children and Youth with Special Needs
Polk County, North Carolina**

Note To Providers

Care Notebooks are a great resource for families and for you too!

They can become an important part of your intake and orientation process for families with children with special health care needs. Please consider developing a policy for your Agency to always use this Care Notebook for each new client and throughout your service period for best results.

INTRODUCTION TO THE CARE NOTEBOOK

What is this notebook for?

- A way to simplify record keeping and store information about many services available to you and your child.
- A place to collect and organize the important papers that accumulate as your child grows.
- To keep track of information you receive for and about your child as he or she journeys through childhood and beyond.

How to get the most out of this notebook:

- Take your notebook with you to all scheduled appointments.
- Update the information in each section when you get new information.
- Review your child's health care with any health care provider or anyone who is not familiar with your child.

Make this notebook work for you:

- Create your own sections.
- Remove and rearrange pages to fit your needs.
- Personalize it with drawings, stickers, photographs, and special articles you find helpful.

Introduction to the Care Notebook

Chapter 1: All About my Child

Quick Reference (Family Contact Information; Emergency Contact Information;
Doctor; Allergies; Insurance Information)
Important Contact Information
My Child's Care Coordinators
Things You Need To Know About My Child to Support Him / Her
My Child Strengths
My Child's Birth Story

Chapter 2: Medical Information

Medical Home Overview
Having A Medical Home Means Your Child's Care Is:
Preventive Pediatric Health Care Chart
Medical and Developmental History
Height and Weight
My Child's Teeth
Medication Log
Allergic Reaction Tracking Form
My Child's Allergies
Tests / X-Rays / Labs
Emergency Department (Room) Visits / Hospitalizations
My Child's Emergency Medical Care
Equipment Log
Disposal of Unused Medications
Storage of Prescription Medications
Community Alternatives Program for Children (CAP-C)
Notes to Take To the Doctor
Immunization Chart Birth-18 years*
Portable Medical Summary- Emergency Information Form for Children with Special Needs

Chapter 3: Infant-Toddler Program Plan (Birth to 3 years old)

Notes To Take To The Individual Family Service Plan (IFSP)
IFSP Issues / Resolution Log
Transition Planning into the Preschool Program
Vision for the Future Form
Notes / Issues for Review at the Next IFSP Meeting
My Child's IFSP

Chapter 4: Pre-School Program Plan (3-5 years old)

Notes To Take To The Individual Education Plan (IEP)
IEP Issues / Resolution Log
Notes / Issues for Review at the Next IEP Meeting
Vision for the Future Form
My Child's IEP

Chapter 5: School Age K – Transition Program Plan

Notes To Take To The Individual Education Plan (IEP)
IEP Issues / Resolution Log
Notes / Issues for Review at the Next IEP Meeting
A Quick Summary of Transition Planning
School Information
My Child's IEP

Chapter 6: Transition to Adulthood

Vision for the Future Form
Health Care Coverage
Transition Changing Role For Youth Check List
Transition Changing Role For Families Check List
Children's Special Health Care Services Transition Timeline for Youth and Families
Health Care Transition Planning Sample Form
My Child's Transition to Adult Health Care Plan

Chapter 7: Mental Health/Developmental Disability

My Child's Person-Centered Plan or Individual Support Plan
Questions / Concerns Form for Care Providers

Chapter 8: Public Program/Financial Resources

Medicaid Fact Sheet
Health Choice
Social Security Income (SSI) Fact Sheet
Food Assistance Program

Other behaviors to be aware of: (e.g. sometimes runs away, talks to strangers, pulls hair when upset)

MY CHILD'S BIRTH STORY

Date of birth:

Medical Home Support

A medical home is an approach to providing inclusive and high-quality primary care. The National Resource Center for Patient/Family Centered Medical Home says a Medical Home should be:

- ***Accessible***
- ***Coordinated***
- ***Compassionate***
- ***Culturally Effective***
- ***Family Centered***
- ***Continuous***
- ***Comprehensive***

**If your child is
birth – 21 years
old and a
Medicaid
recipient**

Call: Blue Ridge Community Health Services 828-894-2222

BRCHS can help families navigate the Medicaid and Health Care system. And, provides Medicaid and NC Health Choice recipients with a medical home and Primary Care Provider (PCP).

- Working with you to establish your child with a medical home and helping you build a strong relationship with them.
- Working with every health care provider that your child sees to ensure he/she gets the best treatment.
- Referring your family to other community agencies to address your family's needs and concerns.

Empowering **YOU** to be your child's best healthcare advocate.

**If your child is
birth – 5 years
old and you
need more help**

Call: Care Management for At-Risk Children (CMARC)

Henderson Co. Health Department -----	828-692-4223
Buncombe Co. Health Department -----	828-250-5096
Polk: Blue Ridge Community Health Services--	828-894-2222

If your child qualifies, CMARC will at no charge:

- Help your family identify your strengths and concerns
- Connect you with other services and resources
- Identify ways to strengthen the parent-child relationship
- Provide information, support and ongoing education

**If you have
private
insurance or no
insurance**

What Does a Patient-Centered Medical Home (PCMH) Mean for You?

It means **Access 24/7**.

It means **Teamwork**.

It means **All your health needs**.

It means **Coordination, finally!**

It means **Today's technology**.

Access 24/7

You can get advice quickly from the care team outside of visits. You can often get appointments the same day.

All Your Health Needs

The team treats you as a whole person, not just as one illness. They will work with you and your family on:

- Prevention and wellness, helping you work towards a healthy lifestyle.
- Both physical and mental health issues such as depression or anxiety.
- A plan of care for any major health problems.

You at the center

Coordination

Finally! Your medical home organizes:

- Results from labs, specialists, and hospitals involved in your care.
- All medications you take, over the counter and prescriptions from any doctors.
- Services you receive in your community, such as programs to stop smoking or lose weight.

Teamwork

Your primary care doctor or nurse attends to your care directly. He or she also leads a highly skilled team of people who work with you. The team can include nurses, counselors, pharmacists, medical assistants, and specialist doctors.

Today's Technology

Information Technology helps your medical home team:

- Keep you up to date. Remind you when you need care, testing, or new information.
- Send prescriptions right to the pharmacy.
- In some offices, let you go online to schedule visits, request prescriptions, get test results, and see your personal health record.

A MEDICAL HOME is the kind of primary health care you and your child deserve. It is not a place, it is a partnership with your primary care provider.

As you pursue your child's health journey, you make stops at different places (specialists, community supports, pharmacy, hospital, mental health). Ideally, your primary care provider will help guide you along the way. ¹

YOU CAN MAKE MEDICAL HOME IMPROVEMENTS²

You can help your practice make changes so that it is a true MEDICAL HOME! The following are a few things to think about and discuss with your child/youth's primary care provider:

1. *How can we, as parents, help you provide an even better MEDICAL HOME for all patients and families in the practice?*
2. *Does the practice have a 'family advisory council' that informs and advises the practice on how to improve their patients' experience? If not, how can we work together to create one?*
3. *How can we work together to develop:*
 - *Easy-to-read, understandable information describing the practice and how patients and families can access appropriate care (e.g., patient brochure, Web site)?*
 - *A patient satisfaction survey?*
 - *Improved physical access to the practice?*
 - *An updated list of community resources for patients/families?*

Let your doctor know how important these improvements are to you and your child/youth's care.

² National Center for Medical Home Implementation

MEDICAL & DEVELOPMENTAL HISTORY

Child's Name:

Birth Date:

Pregnancy History

Mother's age at start of pregnancy:

Length of Pregnancy:

Maternal Weight Gain:

Prescribed or over the counter medications
taken during pregnancy (include vitamins):

Month first felt baby move:
Months

During pregnancy, baby was:
Quiet Active Very Active

As the pregnancy progressed, were there any changes in your baby's activity level? If yes, please describe:

Concerns, complications, or illnesses during pregnancy:

Previous number of pregnancies:

Number of living children:

Describe any difficulties during previous pregnancies:

Labor and Delivery

Labor for my child was: _____ Uncomplicated _____ Complicated / Difficult

Describe any difficulties:

Was internal fetal monitoring
used during labor?

Did membranes rupture?
If yes, number of hours prior to delivery:

Were you awake during delivery?

Labor was _____ Spontaneous _____ Induced

Was anesthesia used?

If yes, what type?

Type of birth:

- _____ Vaginal: _____ Head First _____ Breech _____ Forceps used
- _____ Cesarean Section. Reason for C-section:

Baby was born: _____ Full-term _____ Late _____ Premature (If premature, # of weeks: _____)

Birth / Early Infancy

Birth weight:

Length:

Head Circumference:

APGAR score at 1 minute:

Did baby cry immediately?

APGAR score at 5 minutes:

Did baby need help with breathing?	If yes, how long?
Baby was in hospital _____ days _____ weeks	
Was baby in NICU (neonatal intensive care unit)?	If yes, how long?
Was medication prescribed for the baby?	If yes, describe reason.
While in hospital, did baby require special care after birth (such as therapy, evaluation by a specialist)?	If yes, describe reason.
Describe any difficulties with the baby immediately after birth:	

Did the baby have difficulties during the first months:	<input type="checkbox"/> Feeding <input type="checkbox"/> Alertness <input type="checkbox"/> Jaundice	<input type="checkbox"/> Sleeping <input type="checkbox"/> Movement <input type="checkbox"/> Other:	
---	---	---	--

Has your child had any of the following illnesses? If yes, list at what age.			
<input type="checkbox"/> Chicken Pox <input type="checkbox"/> Whooping Cough Other:	<input type="checkbox"/> German Measles <input type="checkbox"/> Meningitis	<input type="checkbox"/> Hepatitis <input type="checkbox"/> Measles	<input type="checkbox"/> Mumps <input type="checkbox"/> CMV

Has your child had difficulty with any of the following? If yes, list at what age.			
<input type="checkbox"/> Skin rashes <input type="checkbox"/> Breach holding spell <input type="checkbox"/> Frequent Falling <input type="checkbox"/> Respiratory Problems <input type="checkbox"/> Ear Infections <input type="checkbox"/> Constipation <input type="checkbox"/> Other:	<input type="checkbox"/> Anemia <input type="checkbox"/> Coordination <input type="checkbox"/> Sucking <input type="checkbox"/> Asthma <input type="checkbox"/> Heart <input type="checkbox"/> Special dietary considerations	<input type="checkbox"/> Diarrhea <input type="checkbox"/> Swallowing <input type="checkbox"/> Staring Spells <input type="checkbox"/> Fainting Spells <input type="checkbox"/> Allergies	<input type="checkbox"/> Speech <input type="checkbox"/> Turns Blue <input type="checkbox"/> Vomiting <input type="checkbox"/> Dental <input type="checkbox"/> Feeding

Has your child seen a vision specialist? If yes, give doctor's name and reason for visit.

Has your child seen an ear specialist? If yes, give doctor's name and reason for visit.

Has your child had a hearing test ? If yes, give reason for visit.

HEIGHT & WEIGHT LOG

[illegible]

MY CHILD'S BABY TEETH

Record when your child's teeth emerge and are lost in the diagram below.

The following chart shows when primary teeth (also called baby teeth or deciduous teeth) erupt and shed. It's important to note that eruption times can vary from child to child.

UPPER TEETH	WHEN BABY TOOTH EMERGES	WHEN BABY TOOTH FALLS OUT
Central Incisor	8 – 12 Months	6 – 7 Years
Lateral Incisor	9 – 13 Months	7 – 8 Years
Canine (Cuspid)	16 – 22 Months	10 – 12 Years
First Molar	13 – 19 Months	9 – 11 Years
Second Molar	25 – 33 Months	10 – 12 Years

LOWER TEETH	WHEN BABY TOOTH EMERGES	WHEN BABY TOOTH FALLS OUT
Second Molar	23 – 31 Months	10 – 12 Years
First Molar	14 – 18 Months	9 – 11 Years
Canine (Cuspid)	17 – 23 Months	9 – 12 Years
Lateral Incisor	10 – 16 Months	7 – 8 Years
Central Incisor	6 – 10 Months	6 – 7 Years

MY CHILD'S PERMANENT TEETH

The following chart shows when permanent teeth emerge. Record when your child's permanent teeth emerge.

UPPER TEETH	WHEN TOOTH EMERGES	MY CHILD'S TEETH EMERGED: <i>RIGHT SIDE LEFT SIDE</i>	
Central Incisor	7 – 8 Years		
Lateral Incisor	8 – 9 Years		
Canine (Cuspid)	11 – 12 Years		
First Premolar Molar (First Bicuspid)	10 – 11 Years		
Second Molar (Second Bicuspid)	10 – 12 Years		
First Molar	6 – 7 Years		
Second Molar	12 – 13 Years		
Third Molar (Wisdom Tooth)	17 – 21 Years		
LOWER TEETH	WHEN TOOTH EMERGES	MY CHILD'S TEETH EMERGED: <i>RIGHT SIDE LEFT SIDE</i>	
Third Molar (Wisdom Tooth)	17 – 21 Years		
Second Molar	11 – 13 Years		
First Molar	6 – 7 Years		
Second Premolar (Second Bicuspid)	11 – 12 Years		
First Premolar (First Bicuspid)	10 – 12 Years		
Canine (Cuspid)	9 – 10 Years		
Lateral Incisor	7 – 8 Years		
Central Incisor	6 – 7 Years		

Finding the Right Dental Home

FOR YOUR CHILD OR YOUTH WITH SPECIAL NEEDS

Dental care is important because problems in the mouth can affect the health of the body. Children and youth with special health care or developmental needs should generally follow the same standards of care for children of all abilities. However, additional support may be needed. It is important to talk to your dentist about any physical or medical conditions, medications, allergies, and/or behavioral needs that may require some accommodations for your child. This checklist may help families have an ongoing positive relationship and experience with the dental care team for a life-long practice of healthy smiles!

Instructions: Check the box if the dental office provides the service that supports your child or youth.

THIS IS IMPORTANT		WHY?	
	Yes	No	
1. Does the dental office accept your insurance and have flexibility in payment plans if needed?			Payment options allow parent/caregiver to plan and budget for dental care either prior to or after the visit.
2. Does the dental office need any health history paperwork before the first visit?			It may take time to get medical records or complete forms.
3. Does the dental office offer scheduling flexibility to become familiar with the setting and staff?			This allows the family to see the office, meet the dental team and ask questions prior to the actual exam.
4. Does the dental office offer scheduling flexibility to support your child/youth's schedule and routine?			Children/youth who experience frequent medical needs, sensory or anxiety issues, or a range of appointments/therapies may need special scheduling considerations.
5. Is the dental office accessible to your child/youth in a wheelchair or with other mobility equipment (if needed)?			The Americans with Disabilities Act (ADA) requires dental offices to serve children, youth and adults with special health care needs and make accommodations for those using wheelchairs, walkers or any other mobility equipment.
6. Is the dental office able to provide communication support like Sign Language interpreters with enough notice before a visit?			The parent/caregiver needs to notify dental office about special communication needs like American Sign Language (ASL) interpreters or assistive technology, well in advance of visit.
7. Are you allowed to remain with your child/youth in the exam room?			The parent/caregiver's presence may reduce the child/youth's anxiety and increase their comfort with the dental care.
8. Does the dental office have a private exam room available?			A private exam room may prevent distractions or overstimulation of a child/youth with sensory challenges, anxiety, etc.

THIS IS IMPORTANT		WHY?	
	Yes	No	
9. Does the dental office allow your child/youth to bring a comforting object (toy, blanket) into exam or treatment room?			Allowing a child to bring a comfort item can reduce anxiety and increase trust and cooperation.
10. Does the exam room comfortably and physically accommodate your child/youth with mobility equipment (if needed)?			If a wheelchair fits parallel to the dental chair, a child/youth may be able to transfer into the dental chair for the exam. A dental chair with movable armrests may allow an easier transfer for a child/youth.
11. Does the dental office allow for using the same exam room and dental team during your child/youth's visits?			Consistency and routine may lessen anxiety and allow the child/youth and parent/caregiver to build positive relationships with familiar dental care team members.
12. Does the dental team allow your child/youth time to adjust to the exam room and get ready for the dental exam?			Allowing additional time for a child/youth to adjust to the exam room and dental team builds trust and comfort level.
13. Does the dental team talk with you about any special ways to interact with your child/youth?			Dental team asks the parent/caregiver ahead of time about any concerns or strategies to help the child/youth have the best dental experience possible. Dental care team can also suggest strategies such as the TELL, SHOW, DO approach: tell child what they are about to do, show child what the instrument may do, then do the procedure.
14. Does the dental team discuss behavioral support options if your child/youth has trouble remaining still?			Examples may include other seating options, music, noise cancelling headphones, sunglasses, or TV. Options including sedation, anesthesia or restraints require advance informed consent by parent/caregiver.
15. Does the dental team encourage your child/youth and family to ask questions?			The dental team encourages questions before and after the visit.
16. Are special dental care instructions written in an easy to understand format?			Special care instructions are written, easy to understand and in a family's first language.
17. Does the dental office have coverage for emergencies after hours or on weekends?			The parent/caregiver needs to know when and where to go for dental injuries or emergencies that occur outside of normal office hours.

Checklist developed by Children and Youth Branch, Women's and Children's Health Section

For more information on resources to support children with special health care needs, please call or email the **Children with Special Needs Helpline** at 1-800-737-3028 or CYSHCN.Helpline@dhhs.nc.gov

MY CHILD'S EMERGENCY MEDICAL CARE PLAN

If your child has frequent emergency issues, consider putting together an emergency medical care plan. A care plan is away to share information about your child with others. The plan is written information about how to best care for your child's health needs. Health Care Plans can be different based on disability and how/where it is intended to be used. There are many templates available online or talk to your child's doctor about creating a care plan together.

Communication is Key!

A care plan may include:

- What medicines your child takes and when
- Caregiver/parent contact information
- Allergies
- Medical conditions
- What foods your child should avoid
- How often your child gets physical therapy
- What to do for your child in an emergency
- How to get in contact with your doctor after hours
- Specific support staff to contact
- Flagging your child's folder to identify as 'special needs'

Who would receive a copy of a care plan:

- Child's doctors, therapists, nurses, respite providers
- Childcare provider, teachers, school nurses, emergency medics
- Grandparents, neighbors, friends
- Leave a care plan at home, at work, in your car, in your purse, etc.

Children at risk for medical emergencies should consider wearing a medical bracelet or necklace to help emergency providers quickly recognize that the child has a special need.

How to Plan for Emergencies

You and your family members may not be in the same place when an emergency happens. It is important to plan ahead and talk about what you will do before, during and after an emergency. You need to talk about how you will get to a safe place, get in touch with each other and get back to each other.

Emergency Plan

Emergencies and disasters can happen any time and any place. These situations can result in power outages, limited access to medical attention and medications, and a need for supplies. All families should have an emergency plan in place; families of children with special needs will need an emergency plan that addresses the unique needs of their child.

Planning is key! If there is a child with special healthcare needs in your family, you and your family can prepare by developing a written emergency care plan and practicing your plan. For example, a plan can include medicines or assistance devices that your child needs. If possible, let your child help make the plan.

Important questions to consider:

1. Does your family have a written emergency plan?
2. Does your family have communication plan?
3. Do you have a plan if you and your children are not together when an emergency strikes?
4. Do you have an emergency kit with medication and other medical necessities?
5. What will you do if your child has a service animal?
6. Do you have a transportation plan and evacuation route?

Emergency Kit Checklist for families with CYSHCN

<https://www.cdc.gov/childrenindisasters/checklists/special-healthcare-needs.html>

It is important to ensure you and your family are as self-sufficient as possible if you need to evacuate, and update your emergency kit at least once a year.

Here are some resources to help you and your family in a true emergency.

Centers for Disease Control and Prevention (CDC) - Children and Youth with Special Healthcare Needs in Emergencies

Got Unused or Unwanted Medication?

Did you know that nearly 60,000 kids under the age of 5 accidentally swallow dangerous drugs every year and wind up in emergency rooms? One of the ways to protect children from accidental swallowing of medications is to dispose of old or unneeded medications properly.

The Polk County Sheriff's Office has a medication disposal box located in our lobby. You can safely dispose your unused or unwanted medications Monday-Friday, 8am-5pm.

Can't make it to the Sheriff's Office? Be sure to follow us on Facebook to find out when we're holding a Medication Take Back Event near YOU!

Does Your Child (age birth-three) Have Special Needs?

Early Intervention is a system of services designed to support families with children who have, or are at risk for, disabilities. Early intervention professionals work in partnership with parents to help children develop their knowledge and skills to reach their potential.

Examples of Early Intervention Services are:

Assistive Technology	Medical Services
Hearing Devices	Occupational Therapy
Family Counseling	Physical Therapy
Nursing Services	Respite Services
Parenting Classes	Speech/Language

**If your child is
birth – 3 years
old**

Call: Children's Developmental Services Agency (CDSA)

WESTERN NC (Buncombe , Cherokee , Clay , Graham , Haywood , Henderson , Jackson , Macon, Madison, Swain, Transylvania Counties)----- **828-251-6091**
Polk-----**704-450-5440**

You know your child best, if you believe your child has a developmental delay or disability, contact your CDSA to make a referral.

CDSAs assure that children from birth - 3 ears of age receive service mandated under Part C of the Individuals with Disabilities Education Act (IDEA). They are the point of referral for the North Carolina Infant-Toddler Program (ITP).

Once your child is proven eligible, you may choose to enroll in the ITP. If you decide to enroll in the ITP, remember that you are your child's first and best teacher and advocate . Be an active participant in the program to help guide important decisions about your child and the supports and services he or she may need.

**If your child is
birth – 5 years
old**

Call: Care Management for At-Risk Children (CMARC)

Henderson Co. Health Department -----	828-692-4223
Buncombe Co. Health Department -----	828-250-5096
Polk: Blue Ridge Community Health Services	828-894-2222

If your child qualifies, CMARC will at no charge:

- Help your family identify your strengths and concerns
- Connect you with other services and resources
- Identify ways to strengthen the parent-child relationship
- Provide information, support and ongoing education

**Need Further
Assistance**

The [North Carolina Infant Toddler Parent Handbook](#) is a helpful guide to understanding early intervention services in North Carolina.

NOTES TO TAKE TO THE INDIVIDUAL FAMILY SERVICES PLAN (IFSP)

This is a form to help you prepare for the Individualized Family Service Plan (IFSP) meeting. The IFSP is the plan for your child and family's support plan and services to be provided.

What are your main concerns about your child?

What are your child's strengths?

In order to put together a plan that is tailored to your child, rather than your child's diagnosis, please describe your child.

What is your child's diagnosis or qualifying condition?

Who diagnosed your child?

Who would you like to be at your IFSP?

What support does your family need? What services does your child need?

IFSP ISSUES / RESOLUTION LOG

[illegible]

NOTES / ISSUES FOR REVIEW AT THE NEXT IFSP MEETING

Date:

Notes:

Transition to the Preschool Plan

The information below is helpful in planning your child's "transition" to preschool services 6 months prior to his/her third birthday. The process starts at 2 years, months most of the time.

This plan is specific to children who are receiving early intervention services through the CDSA.

⇒ **8-9 Months before your child turns 3 years old:**

- Your Service Coordinator will schedule a time to meet with you, starting the Transition process.
- Present at this meeting will be:
 - **Who:**
 - Parent and anyone you would like to invite
 - Children's Developmental Services Agency Service Coordinator
 - **What:**
 - Discuss what Transition means.
 - Review IFSP goals if needed.
 - With your help add a transition goal to the Individual Family Service Plan.
 - Get your permission to contact the Local Education Agency (LEA) to make a referral and talk.
 - Talk to the Preschool Program. You may also complete a Notification/Referral form if needed.

⇒ **5-6 Months before your child turns 3 years old:** with your permission

- The Children's Developmental Services Agency Service Coordinator will send the Notification and Referral form to Preschool Coordinator providing information about your child.
- The Children's Developmental Services Agency Service Coordinator will set up a Transition Planning Conference where you will meet the Preschool Coordinator and discuss the transition plan.
- Evaluations will be scheduled to be completed closer to your child's 3rd birthday.

⇒ **2-3 Months before your child turns 3 years old**

- The Preschool Coordinator will schedule a referral meeting where you will have the choice of what information and assessments will be reviewed by the school.
- A plan will be developed regarding specific tasks needed, who will be responsible to do them and when the tasks will be completed.

- The school will complete any assessments needed to help determine eligibility for services.
- Evaluations will be done during this time, such as: Speech, Motor, Assistive Technology, Psychological, Adaptive, Educational, etc.

⇒ **1-2 weeks before your child turns 3:**

- The Individual Education Plan meeting will be held to determine if your child is eligible for services with the school district.
 - **Who**
 - Parent Child Service Coordinator
 - Preschool Coordinator (Local Education Agency)
 - Regular Education Teacher
 - Special Education Teacher
 - Anyone you feel can support you in this meeting such as family, friends, etc.
 - You may also want to invite your CDSA Service Coordinator and therapists that are working with your child. You can choose to have a Care Managers through Care Management for At-Risk Children to follow your child's progress until five years of age. If so, it would be important to invite them to the IEP meeting.
 - **Why:** The Individual Education Plan is the map for your child's teachers and therapists who will be serving your child in the preschool program.

⇒ **Happy Third Birthday!**

If your child is found to be eligible for services, he/she will now receive services through your local Preschool program. The Individual Education Plan (IEP) is now active. Remember that the IEP can be changed if it is not working for your child! Make a note of who to call if you have questions.

VISION FOR THE FUTURE FORM

Most parents don't know this is a question in their child's IEP. It is such an important one! Bring a prepared statement to have put in the IEP. Think about short-term goals (current school year) and long-term goals (school career) when answering this question.

An example vision statement might be: Our vision for John is that he'll be able to apply his caring heart and his desire to learn and socialize in an environment that will support his social and academic needs. We would like him to come to understand himself, and, in time, to be able to successfully manage his needs independently so that his gifts may shine. We would like to see him make continued improvement with his social skills, in addition to his academic skills, so he can enjoy lasting friendships throughout his school years and his life.

Does Your Child (age three-five) Have Special Needs?

The North Carolina Preschool Program focuses on your child's educational needs. The North Carolina Preschool Program offers a variety of services to help young children ages three to five years. The Preschool Program strives to educate the child to enable him or her to participate in daily activities.

Preschool Program services may include:

Audiology	Counseling
Interpreting	Occupational therapy
Orientation/mobility	Physical therapy
School Nurse	Social Worker
Speech/Language	Transportation

If your child is 3 – 21 years old

Call: Your Local Education Agency (LEA)

Henderson Co. Schools----- 828-697-4566
Asheville City Schools----- 828-350-7000
Buncombe Co. Schools ----- 828-255-5972

Polk Co. Schools 828-894-3051

If appropriate, this program will:

- Evaluate your child
- Develop an Individual Education Plan (IEP)
- Provide special services for your child at child care or other suitable location
- Provide special education and related support services

If your child is birth – 5 years old

Call: Care Management for At-Risk Children (CMARC)

Henderson Co. Health Department ----- 828-692-4223
Buncombe Co. Health Department ----- 828-250-5096
Polk Blue Ridge Community Health Services 828-894- 2222

If your child qualifies, CMARC will at no charge:

- Help your family identify your strengths and concerns
- Connect you with other services and resources
- Identify ways to strengthen the parent-child relationship
- Provide information, support and ongoing education

My Child's Individualized Education Plan (IEP)

Insert a copy of your child's current IEP. This should include a Transition Plan at the age of 14.

*If you do not use an IEP, then add your section 504 and/or
Individualized Health Plan (IHP) to this section.*

Does Your Child (age 5-21) Have Special Needs?

Is your child showing developmental delays or having significant academic, physical, or emotional problems?

Your local school district can help determine if your child needs interventions or a specialized plan.

You are a team member in making these decisions and developing a plan.

Your child may need a Section 504 Accommodation Plan or Individual Health Plan

The 504 Plan is a plan developed to ensure that a child who has a disability identified under the law and is attending an elementary or secondary educational institution that receives federal funds and receives accommodations that will ensure their academic success and access to the learning environment.

Individualized Healthcare Plan (IHP) is a plan for “students whose healthcare needs affect or have the potential to affect safe and optimal school attendance and academic performance.”

Your child may need an Individualized Educational Plan and special education services

Individualized Educational Plan (IEP) is a plan or program developed to ensure that a child who has a disability identified under the law; is attending an elementary or secondary educational institution and receives specialized instruction and related services.

Call: Your Local Education Agency (LEA)

Henderson Co. Schools -----828-697-4566

FIRST Resource Center -----828-277-1315
Family Support Network of WNC -----828-213-0033
Exceptional Children’s Assistance Center (ECAC) -----1-800-962-6817

What is the difference between an IEP and a 504 Plan?

IEP Defined – Individualized Educational Plan (IEP) is a plan or program developed to ensure that a child who has a disability identified under the law and is attending an elementary or secondary educational institution receives specialized instruction and related services.

504 Plan Defined – 504 Plan is a plan developed to ensure that a child who has a disability identified under the law and is attending an elementary or secondary educational institution receives accommodations that will ensure their academic success and access to the learning environment.

Subtle but Important Differences – Not all students who have disabilities require specialized instruction. For students with disabilities who do require specialized instruction, the Individuals with Disabilities Education Act (IDEA) controls the procedural requirements, and an IEP is developed. The IDEA process is more involved than that of Section 504 of the Rehabilitation Act and requires documentation of measurable growth. For students with disabilities who do not require specialized instruction but need the assurance that they will receive equal access to public education and services, a document is created to outline their specific accessibility requirements. Students with 504 Plans do not require specialized instruction, but, like the IEP, the 504 Plan should be updated annually to ensure that the student is receiving the most effective accommodations for his/her specific circumstances.

Borrowed from: Molly's Place at the CHaD Family Center

TERMS TO KNOW

FAPE

- Children with disabilities have the right to a free and appropriate public education (FAPE). It ensures that each child receives an education that meets his/her individual needs.

IEP

- An Individualized Education Program (IEP) is a legally binding document that sets goals for an eligible child based on their unique needs and strengths. The IEP explains the services and supports the school will provide, and how progress will be monitored.

Present Level of Performance

- Present level of performance serve as the starting point for the coming year's IEP. Present level of performance focus on a child's strengths, needs, and grade level expectations for both academic and functional performance. Present levels play an important role in setting annual goals for the IEP.

LRE

- Least restrictive environment (LRE) means that students with disabilities have to be educated in the same setting as students without disabilities as much as possible, as long as their needs can be met.

Accommodation

- An accommodation is a change made because of a student's disability to allow them to participate and benefit from their education. Accommodations don't change what a child is expected to know.

FBA

- A functional behavioral assessment (FBA) is a process used to try to understand a child's challenging behaviors. It attempts to identify when and where specific behaviors occur, and the function of the behavior for the child. The school then writes a behavior intervention plan (BIP), which outlines how to address the issues.

Related Services

- Specialized services required for the student to benefit from special education. Ex: Physical therapy, counseling, and/or transportation.

Prior Written Notice

- Schools must tell parents in writing before changes are made or refused regarding a child's evaluation, eligibility or the child's special education program.

Procedural Safeguards

- Schools must give parents a written explanation of the rights that they and the student have under IDEA. This is sometimes called the parent rights handbook.

IEP Checklist:

Prepare and Participate

Your involvement...

in developing an effective and appropriate Individualized Education Program or IEP for your child is essential to your child's success.

While IEPs typically cover a 12-month period, they help to create the foundation for your child's future. Think of the adult your child will become. When planning, think well beyond just one year.

step ONE:

Before The IEP Meeting:

Review!

The Individuals with Disabilities Education Improvement Act of 2004 (IDEA) requires schools to give parents of students with disabilities adequate notice to participate in the IEP meeting. This notice is called **Invitation to Conference/Prior Notice**. The NC Department of Public Instruction considers "adequate" notice to be 7-10 calendar days. The notice must be given to you in writing and in your native language.

Carefully review the invitation/notice and consider the following:

- ☐ Is the *purpose* of the meeting clearly stated?
- ☐ Is my child 14 years old or turning 14 during the next 12 months? If so, did he/she receive their own written invitation to the IEP meeting as required when planning for their transition to adulthood?
- ☐ Who is attending? What are their roles in the meeting?
- ☐ Are there any team member excusal requests attached to invitation?
- ☐ Is the Date/Time/Location convenient for your schedule?

Respond!

Read, sign and return the Invitation to Conference/Prior Notice as soon as possible and keep a copy for your records. Include in writing any of the following that apply:

- ☐ Suggestions for alternative meeting dates or times, if necessary
- ☐ A request to participate by conference call or other way if you are unable to participate in person
- ☐ A list of whom you are inviting, if anyone
 - consider inviting a friend, relative, outside professional or note taker
- ☐ A list of concerns or issues that you wish to discuss: this is your **agenda**
- ☐ A request for a copy of any proposed IEP draft, well in advance of the meeting
- ☐ Your approval or disapproval of any team member excusal request
- ☐ A note, if you plan to audio record the meeting

Be sure enough time has been scheduled for the meeting to discuss:

- Items listed on the Invitation to Conference
- Concerns or issues on your agenda

Organize!

Carefully organize your child's records/files in an order that works well for you. If you notice that you are missing an important document, ask your child's school for a copy.

Your child's records/files should include (*as appropriate for your child*):

- ☐ Current and past IEPs
- ☐ Report cards
- ☐ Work samples
- ☐ Evaluation/assessment results
- ☐ Progress reports on academics and IEP goals
- ☐ Notes/email/phone call logs of communication about your child
- ☐ Functional Behavior Assessments (FBA)
- ☐ Behavior Intervention Plans (BIP)
- ☐ Other documents, such as Person-Centered Plan, tutor reports, behavior logs/reports, discipline referrals, medical records, therapy, treatment reports, etc.

Prepare!

As you prepare for the IEP meeting, review your child's records/files and consider the following:

1. ***What has been accomplished?***
2. ***What has worked well?***
3. ***What needs more work?***
4. ***What are my concerns? What are my child's concerns?***

- ☐ Visit ECAC's web site, www.ecac-parentcenter.org, to download or review the following tools:
 - Positive Student Profile
 - Blank IEP documents and other worksheets or forms
 - NC Policies Governing Services for Children with Disabilities
 - NC Procedural Safeguards: Handbook on Parents' Rights
 - Select the **YouTube** icon and watch ECAC's IEP videos
- ☐ Write down and prioritize a list of any questions, concerns or requests that you have.
- ☐ Create a vision statement for your child's life both now and for the future.
- ☐ Make copies or ask the school to make copies of your agenda (*those topics or issues that you want to discuss and address*).
- ☐ Gather supporting documents such as private evaluations, therapist notes, research-based fact sheets, records of past trials, etc.
- ☐ Ask your child about how things are going. What is working or not working?
- ☐ Prepare your child to participate in the meeting, if they are attending.
- ☐ Consider bringing pictures or a short video of your child to the meeting.
- ☐ Give or send a reminder note to anyone you have invited to the meeting.
- ☐ Ask the teacher(s) about your child's progress and any specific concerns or ideas they have for the upcoming year.

step TWO:

The IEP Meeting:

Participate!

It is important for every member of the IEP Team, including you, to be prepared to work together. The Team must consider and use a wide variety of data and other information, including the information you share, to create an IEP that is appropriate for your child.

The following steps will help you to effectively participate in the IEP meeting:

- ☐ Remember to bring your notes, records and any other information you need for the meeting. Don't forget a pencil/pen/paper and remember to bring your child's pictures or video if desired.
- ☐ Arrive 10-15 minutes before the meeting's start time.
- ☐ Connect with any person(s) that you invited before entering meeting.
- ☐ Request introductions, if necessary, and clarify everyone's role at the meeting.
- ☐ Ask who is responsible for taking the meeting notes or minutes. *Review notes periodically during the meeting to ensure that they are clear, accurate and have adequate detail.*
- ☐ Review the IEP meeting agenda.
- ☐ Give copies of your agenda (*if you made one*) to each team member.
- ☐ Share your ideas, opinions and feelings throughout the meeting.
- ☐ Listen carefully to what is being said.
- ☐ If something is not clear, ask questions as needed to be sure you fully understand before moving forward.
- ☐ Request a brief break if you need one.

Remember that YOU are the expert on your child!

Fifteen minutes before the meeting ends:

- ☐ Review the meeting minutes and the Prior Written Notice for accuracy. (form DEC5)
- ☐ Check to see if all your concerns have been addressed.
- ☐ Make sure that the wording throughout the IEP is clear and specific enough to be understood by anyone – even if they were not present at the meeting!!
- ☐ Schedule another IEP meeting if there is an unresolved issue or if you ran out of time.
- ☐ Identify who is responsible for each part of the IEP and any follow-up activity.
- ☐ Sign the IEP. Your signature documents your **attendance and participation** in developing the IEP.
- ☐ If you disagree with any part of the IEP, state your concern(s) in writing on the IEP form next to your signature or in the margin.
- ☐ Thank the other team members for their participation, efforts and ideas for your child.

IMPORTANT NOTE: You are entitled to a copy of your child's completed IEP. If it is not offered to you, ask for a copy before leaving. Be sure to take it with you even if a cleaned-up copy will be sent.

You may also receive copies of other special education related documents at the end of the meeting. Once home and while the meeting is still fresh in your memory, take time to review everything. Contact the school in writing if any clarifications or corrections are needed. As always, keep these documents with your child's other records!

step

THREE:

After The IEP Meeting:

Follow Up!

Congratulations, you have completed an important step in your child's education. This is a great time to reflect on your IEP meeting experience and to make some notes about how to improve this process for the next meeting.

- ☐ Write **"Thank You"** notes or letters to those you invited and other team members.
- ☐ Write letters of clarification to address any concerns, questions, overlooked areas, etc., if needed.
- ☐ Consider sharing a copy of the IEP with other professionals working with your child.
- ☐ Ensure ALL of your child's teachers are aware that the IEP has been updated.

Remember...

the end of the IEP meeting is the beginning of an appropriate education for your child. Stay connected throughout the year:

- ☐ **MONITOR** your child's education to ensure proper implementation of the IEP and to ensure that your child is making adequate progress.
- ☐ **COMMUNICATE** with your child's teachers and others. Share successes and address any issues as they arise.
- ☐ **MAKE TIME** to review the IEP periodically and request an IEP meeting to discuss changes if needed.
- ☐ **CONTACT ECAC** at 1-800-962-6817 or visit www.ecac-parentcenter.org

Working With Your Child's Teachers

Parent Checklist

It is important to have a positive relationship with your child's teacher. Effective and positive communication is key in building a partnership to help your child succeed.

Working with Teachers / School	Already do this!	I'll try it!
I talk to my child's teachers about his/her work, and tell them what they need to know about my child.		
If I don't understand what is going on at school, I contact the teacher.		
If my child is concerned about school issues, I talk to my child and to the teacher to find out what is happening.		
I try to show my child's teachers respect, and work with them on my child's behalf.		
I find out everything I can about the school my child attends.		
If possible, I attend PTA or PTO meetings.		
If I notice my child is having trouble in a subject I will talk with my child's teacher and find out how I can help.		
I meet the teacher early in the year before any problems arise.		
If the teacher has been especially helpful and cooperative I send a thank you note and pass the compliment on to the principal.		
I mark important dates on my calendar.		
I keep and organize school records relevant to my child's IEP.		
I prepare for and attend parent/ teacher conferences, Individualized Educational Plan meetings or other individualized school meetings.		
I have a communication system with my child's teacher (For example: communication notebook, daily / weekly folder, contact information scheduled, etc).

NOTES TO TAKE TO THE INDIVIDUAL EDUCATION PLAN (IEP)

This is a form to help you prepare for the Individualized Education Program (IEP). The term IEP is used to describe the plan for your child's education and the services provided through the school system. The meeting where the plan is created is called an IEP.

What are your main concerns about your child?

What are your child's strengths?

In order to put together a plan that is tailored to your child, rather than your child's diagnosis, please describe your child.

What is your child's diagnosis or qualifying condition?

Who diagnosed your child?

Who would you like to be at your IEP?

What type of school setting and support services do you believe your child needs?

IEP ISSUES / RESOLUTION LOG

Date:

Who was contacted:

Phone #:

VISION FOR THE FUTURE FORM

Date:

Ideas for the future of my child (Employment, Housing, further education their dreams, your dreams, etc.):

Resources to make my child's dreams come true:

My Child's Individualized Education Plan (IEP)

(Insert a copy of your child's current IEP. This should include a Transition Plan at the age of 14.

*If you do not use an IEP then add your Section 504 and/or
Individualized Health Plan (IHP) plan to this section)*

A Quick Summary of Transition

Life is full of transitions, and one of the more remarkable ones occurs when we get ready to leave high school and go out in the world as young adults. When the student has a disability, it's especially helpful to plan ahead for that transition.

- Transition services are intended to prepare students to move from the world of school to the world of adulthood.
- Transition planning begins during high school at the latest.
- The Individuals with Disabilities Act (IDEA) requires that transition planning start by the time the student reaches age 16.
- Transition planning may start earlier (when the student is younger than 16) if the IEP team decides it would be appropriate to do so.
- Transition planning takes place as part of developing the student's Individualized Education Program (IEP).
- The IEP team (which includes the student and the parents) develops the transition plan.
- The student must be invited to any IEP meeting where postsecondary goals and transition services needed to reach those goals will be considered. This is particularly important starting at the age of 14 so the child can be a part of the process. Of course, parent participation should continue even as the child gets older.
- In transition planning, the IEP team considers areas such as postsecondary education or vocational training, employment, independent living, and community participation.
- Transition services must be a coordinated set of activities oriented toward producing results.
- Transition services are based on the student's needs and must take into account his or her preferences and interests.

Transitioning to Adulthood – What You Need to Know

At a Glance

Life is full of transitions, and one of the more remarkable ones occurs when we get ready to leave high school and go out in the world as young adults. When the student has a disability, it's especially helpful to plan ahead for that transition. In fact, the Individuals with Disabilities Education Act (IDEA) requires it.

Transition planning helps kids with IEPs prepare for life after high school. Under federal law, transition planning must start by the time your child turns 16. Planning is about more than just college — it covers jobs and daily life skills too.

Planning & Communication is Key!

The Domains of Adulthood to Consider

The definition of transition services mentions specific domains of adulthood to be addressed during transition planning.

- Postsecondary education
- Vocational education
- Integrated employment (including supported employment)
- Continuing and adult education
- Adult services
- Independent living
- Community participation

Tips That May Help Your Child's Transition to Adulthood

- Develop self-determination & self-advocacy skills
- Connect with adult service providers
- Expand social and community support networks
- Explore housing options
- Build a work resume
- Plan for health care needs
- Learn “soft” employment skills
- Visit postsecondary training and education programs
- Practice money management skills
- Prepare for change!

Health Care Transition Timeline

for Parents/Caregivers

Age 12-13

- Help your teen learn about their own health condition, medications, and allergies.
- Encourage your teen to ask their doctor questions about their own health.
- Ask your teen's doctor if and at what age they no longer care for young adults.

Age 14-15

- Learn what your teen knows about their own health, health care, and family medical history. Both you and your teen can take Got Transition's Transition Readiness Assessments* and discuss this together and with the doctor.
- Have your teen carry their own health insurance card.
- Help your teen learn more about their own health and what to do in case of an emergency.
- Help your teen practice making a doctor's appointment and ordering prescription refills (either by phone, online, or through an app).
- Encourage your teen to see the doctor alone for part of the doctor's visit to help gain independence in managing their own health and health care.

Age 16-17

- Encourage your teen to make doctor's appointments, see the doctor alone, ask the doctor questions they may have, and refill medications.
- Ask the doctor to talk with your teen about their privacy rights when they turn 18.
- Work with your teen and the doctor to make and share a medical summary.
- Before your teen turns 18 and becomes a legal adult, figure out if they will need help making health care decisions. If so, ask your Family Voices chapter for local resources.
- Talk with your teen about the age they want to transfer to a new doctor for adult care.

Age 18-21

- At age 18, your child is a legal adult and legally responsible for their care. You cannot access their medical information or be in the doctor's visit unless your young adult agrees or certain legal forms have been completed.
- If you need local resources on supported decision-making, ask your Family Voices chapter.
- Learn if there are additional changes at 18 that affect your young adult (e.g., health insurance, Social Security Income).
- Encourage your young adult to ask their current doctor to find a new adult doctor. Make sure that the new doctor accepts your young adult's health insurance, and help them learn if there are any charges at the visit.
- Encourage your young adult to keep a copy of their medical summary and always carry their health insurance information with them.

Age 22-25

- Encourage your young adult to get care from their adult doctor, learn to manage their own health and health care, and update their medical summary.
- Encourage your young adult to stay insured. If they change health insurance, encourage them to make sure their doctor takes their insurance and learn if there are any charges at the visit.

Transition Readiness Changing Roles for Families

Compare your answers with your child. You might be surprised what they know or what they want to learn. Work on a plan to increase their health care skills. Share with the medical team the skills that you and your child are working on. It takes time and practice to learn and demonstrate these skills. Best time to start, is today!

Health & Wellness 101 The Basic Skills	Yes I do this	want to do this	I need to learn how	Someone else will have to do this- Who?
KNOWLEDGE OF HEALTH ISSUES/DIAGNOSIS				
1. My child understands his/her health care needs, and disability and can explain these needs to others.				
2. My child can explain to others how our family's customs and beliefs might affect healthcare decisions and medical treatments.				
3. My child knows his/her health and wellness baseline (pulse, respiration rate, elimination habits)				
4. My child knows health symptoms that need quick medical attention.				
5. My child knows what to do in case he/she have a medical emergency				
BEING PREPARED				
6. My child carries his/her health insurance card everyday				
My child carries his/her important health information with me every day (i.e.: medical summary, including medical diagnosis, list of medications, allergy info., doctor's numbers, drug store number, etc.)				
TAKING CHARGE				
8. My child calls for his/her own doctor appointments.				
9. My child knows he/she has an option to see the doctor by them self.				
10. Before a doctor's appointment my child prepares written questions to ask.				
11. My child racks his/her own appointments & prescription refills expiration dates.				
12. My child calls in his/her own prescriptions refills.				
13. My child has a part in filing medical records and receipts at home.				
14. My child pays for the co-pays for medical visits.				
15. My child co-signs the "permission for medical treatment" form (with or without signature stamp) or can direct others to do so).				
16. My child helps monitor his/her medical equipment so it's in good working condition (daily and routine maintenance).				
AFTER AGE 18				
17. My child and our family have a plan so he/she can keep my healthcare insurance after turning 18 and 26.				
18. My child will be prepared to sign his/her own medical forms (HIPAA, permission for treatment, release of records)				
My child and our family have discussed and plan to develop a legal Power of Attorney for health care decisions in the event health changes and he/she is unable to make decisions for them self. (Everyone in the family should have one!)				

You are welcome to use Changing Roles "as is" or adapt it to your setting or needs. Revised in 2011 by Patti Hackett, MEd. This tool was adapted from the federally funded, HRSA/MCHB HRTW Tool - Changing Roles, developed by Patti Hackett, Ceci Shapland & Mallory Cyr, 2006, 2009.

Transition Readiness Changing Roles for Youth

Compare your answers with your family. They might be surprised what you know or what you want to learn. Work on a plan to increase your health care skills. Share with the medical team the skills that you are working on. It takes time and practice to learn and demonstrate these skills. Best time to start, is today!

Does Your Child Need Extra Support?

If your child is diagnosed or you suspect your child has a developmental disability, mental health concern or substance abuse issue, there may be community-based services available to help your family. To determine if your child is eligible for services, you should contact your Local Management Entity (LME), **Vaya Health** on their confidential Access to Care Line at 1-800-849-6127.

If you do not qualify for these services, there may be services through your child's school, through the local Department of Public Health, or through other community agencies.

Below are the types of questions you should be ready to answer:

- *What was the reason you called today?*
- *Has your child ever been given a Mental Health, Developmental Disability or Substance Use diagnosis?*
- *Are you worried they may hurt themselves or someone else?*
What's your child's name? Where do you live? Date of Birth
- *Does your child have Medicaid or private insurance? Are they uninsured?*

TIP: This is the time to be very honest about your child. Talk about a typical day with your child and their normal behavior, which may not be their best day. Your response will help determine the type of need your child and family has right now.

To Get Help

Call: **VAYA Health Access to Care Line** ----- **1-800-849-6127**

Toll free 2 hours a day, 7 days a week

Hearing impaired? For NC Relay, dial 711.

This confidential toll-free number is available for people in crisis or seeking information about mental health (MH), substance use (SU), or intellectual/developmental disability (IDD) services in Western North Carolina.

* VAYA Health Member Privacy - You should be aware that information can be provided without your consent to help in treatment and care coordination, for healthcare operations such as payment, for emergency care and to law enforcement officers to comply with a court order. Special rules may apply if you have a legal guardian appointed, are a minor, are receiving treatment for substance use or are diagnosed with HIV/AIDS.

Additional Resources

Here are some other resources to use in an emergency:

National Suicide Hotline----- **1-800-273-8255**

RHA Health Services Mobile Crisis Management Crisis Line

Available 24/7, no fee.----- **1-888-573-1006**

Mental health

✚ CALL 911 or 988 if this is a medical or life-threatening emergency. ✚

If you need the police, ask for a Crisis Intervention Team (CIT officer). They have received extra training on handling these situations.

If this is NOT a medical or life-threatening emergency, Call United Way 2-1-1 to find resources near you.

Find help here:

Vaya Health Access Center

1- 800-849-6127

or for TTY - contact NC Relay at 711.

Available 24 hours a day, 7 days a week. Customer Service Specialists will assist you to find a crisis provider that is well-matched with your needs. If you already have a service provider, call them first. Providers who know you are usually best prepared to assist you in a crisis.

Need Support Now?

Call or text 988 or chat

Have Support Come to You.

RHA Behavioral Health Services Mobile Crisis Line ----- 1-888-573-1006

Crisis situations are often best resolved at home. Mobile Crisis Teams are available 24 hours a day and serve Henderson County, as well as most other counties in Western North Carolina. Professional counselors will speak with you and your family during a visit. They have an average response time of 2 hours.

Go To A Crisis Center.

Family Preservation Services (FPS) ----- 1-828 697-4187 or 1-828- 697-2660

FPS offers an array of community, home, and school based services designed to respond to identified state and local needs. They provide trauma-specific approach to working with medical, behavioral and the social needs of an individual.

Additional Services for Child and Family Support

Respite Care

Care Haven is a short-term placement created to provide a safe and therapeutic environment for clients who are awaiting their next placement option or simply needing a break from the current living environment. In order to enter Care Haven, the client must be in the 6- 17 year old age range, have Vaya Medicaid coverage (unless paying out of pocket), and have a mental health diagnosis. For more information on how to arrange a virtual interview, please email carehaven@caringalternative.com; where you will be provided with an automated message that will walk you through the process. House Manager: **828-608-3408**

Brandi Nichole Family Enrichment Center 828-687-3776 Respite Care and Family Support

The Hope Center of Hendersonville is a day program for adults 18 years and older with intellectual and developmental disabilities. **828-692-0905**

We Rock the Spectrum

Inclusive kid's gym for children of all abilities that also offers Respite and break time care, and one-to-one attendant care, sensory safe gym, with therapy equipment, calming room and more. Located in South Asheville. 1-828-505-7556. <https://www.werockthespectrumasheville.com/>

Intellectual and Developmental Disability Services

Polk Vocational Services (PVS) – 82-894-3041

For over 50 years, PVS has been serving people with disabilities and other life barriers in Polk and surrounding counties. We are proud to be the largest manufacturing employer in Polk County. Empowered by our quality- focused manufacturing, PVS is able to provide meaningful employment and support services for people of all abilities. As we continue to grow, we're always looking for new people to join the PVS family, including those looking for meaningful employment as well as those who could benefit from our support services. Our support offerings include day, community, and residential services. We are located at 451 Industrial Park Drive, Columbus NC 28722.

The Arc of Buncombe County

The ARC exists to empower children & adults with intellectual and developmental disabilities to realize their highest potential through advocacy, education, programs, and family support. Located in Buncombe County but serves Henderson County families.

www.arcofbuncombecounty.org **1-828-253-1255**

Turning Point Services

Intellectual and Developmental Disability services offered, including - Innovations wavier services, State-funded services, vocational rehabilitation services, adult day programs and several residential services. **1-828-298-2100**

Substance Abuse, Mental Health, and Behavioral Health Services

Children and Family Resource Center

Parent-child Interaction Therapy (PCIT) is a short-term, evidence-based, therapy for young children (ages 2.5 to 7 years old) who have been experiencing disruptive, attentional, and/or oppositional behaviors. Multiple other family and support programs are also available.

<https://www.childrenandfamily.org/>

828-698-0674

Polk County Public Schools

Contact your child's principal, school social worker, counselor, or school nurse or Office of Student Services. North Carolina's procedure to locate all of the children with disabilities within our community is called Child Find. If your family are residents of Polk County or your child attends a private school within Polk County and you believe your child might have a need for services, please contact Toni Haley at 828-894-3051 or thaley@polkschools.org

For more information, please go to NCDPI's Exceptional Children's website:

<http://ec.ncpublicschools.gov/policies/project-child-find>

NAMI – National Alliance on Mental Illness

NAMI provides advocacy, education, support, and public awareness so that all individuals and families affected by mental illness can build better lives.

<http://www.namiwnc.org/>

1-828-505-7353

SAMHSA – Substance Abuse and Mental Health Services Administration

The Substance Abuse and Mental Health Services Administration (SAMHSA) leads public health efforts to advance the behavioral health of the nation. SAMHSA's mission is to reduce the impact of substance abuse and mental illness on America's communities.

Medicaid or NC Health Choice

Your county Division of Social Services (DSS) caseworker will help determine if your child is eligible for NC Medicaid or Health Choice.

You can also apply here: <https://epass.nc.gov/>

Henderson County Department of Social Services -----828-697-5500

Buncombe County Health & Human Services ----- 828-250-5500

Polk County Department of Social Services-----828-894-2100

Supplemental Security Income (SSI) Benefits

Children under age 18 can get SSI if they meet Social Security's definition of disability for children and there are limited income and resources in the household.

When your child turns 18, Social Security will review their eligibility for continued SSI benefits based on disability rules for adults, including non-medical eligibility rules (income, resources, residency, citizenship, etc.). They will generally contact you within a year of turning age 18 for an age-18 redetermination.

Call Department of Social Security -----1-800-772-1213

Food and Nutrition Assistance (EBT)

There are three ways to apply for **Food and Nutrition Services**.

1. Apply online with ePASS
2. Apply in person at your local Department of Social Services (if you are disabled you may call for a phone interview)
3. Fill out a paper application and mail or drop it off at your county DSS.

to obtain free and confidential information on health and human
services and resources within their community

What You Should Know Before You Apply for Social Security Disability Benefits

We sent you this disability starter kit because you requested an appointment to file for disability benefits. The enclosed letter has the date, time, and location of your appointment.

The following are answers to questions most people ask about when applying for disability benefits. Knowing the answers to these questions will help you understand the process.

* What can I expect during the appointment?

A Social Security representative will interview you and complete an application for disability benefits and an Adult Disability Report. The interview will take place either in your local Social Security office or by telephone. It will take at least 1 hour.

* What can I do to speed up the process?

You can cut your interview time in half by starting the process online. You can complete online, BOTH the **application for benefits** and the **disability report** by going to:

www.socialsecurity.gov/applyfordisability.

You still need to **keep your scheduled appointment** with the local Social Security office, so a representative can review your information.

If you cannot do business with us online, you can complete the enclosed Medical and Job Worksheet and have it ready for your appointment.

You can also speed things up by bringing to your office appointment the information listed on the enclosed checklist. If you have an appointment by telephone, the representative may ask you to provide any required checklist items.

* How does Social Security decide if I am disabled?

By law, Social Security has a very strict definition of disability. To be found disabled:

- You must be unable to do any substantial work because of your medical condition(s); **and**
- Your medical condition(s) must have lasted, or be expected to last, at least 1 year, or be expected to result in your death.

* My doctor says I am disabled. Is that enough to qualify me for disability benefits?

No. You cannot get disability benefits solely because your doctor says you are disabled.

(over)

What You Should Know Before You Apply for Social Security Disability Benefits

* I am getting disability payments from my job or another agency. Can I automatically get Social Security disability benefits?

No. Social Security disability laws are different from most other programs. For example, Social Security does not pay benefits for partial disability.

* How long does it take to make a decision?

Generally, it takes about 3 to 5 months to get a decision. However, the exact time depends on how long it takes to get your medical records and any other evidence needed to make a decision.

* How does Social Security make the decision?

We send your application to a state agency that makes disability decisions. The state has medical and vocational experts who will contact your doctors and other places where you received treatment to get your medical records.

The state agency may send you forms to complete or ask you to have an examination or medical test. If the state does request an examination, **make sure you keep the appointment.** You will not have to pay for any examination or test you are sent for, by the state agency.

* If Social Security decides that I am disabled, what types of benefits can I receive?

Social Security pays disability benefits under two programs:

- Social Security Disability Insurance (SSDI) for insured workers, their disabled surviving spouses, and children (disabled before age 22) of disabled, retired, or deceased workers.
- Supplemental Security Income (SSI) for people with little or no income and resources.

* Will my personal information be kept safe?

Yes. Social Security protects the privacy of each individual we serve. As a Federal agency, we are required by the Privacy Act of 1974 (5 U.S.C. 522a) to protect the information we get from you.

* What if I am more comfortable speaking in a language other than English?

You are encouraged to bring a friend or relative to translate for you. We provide free interpreter services to help you conduct your Social Security business. However, we need advanced notice to make arrangements with the translator.

* Where can I get more information?

You can visit our website at www.socialsecurity.gov, ask the interviewer during your appointment, or call us toll-free at **1-800-772-1213** (for the deaf or hard of hearing, call TTY 1-800-325-0778).

Prescription Assistance Programs

Many people have trouble affording their prescription medications, but there are assistance programs available.

Reduced rate on prescription medications

- [The FamilyWize Program](#) is a pharmacy savings program that uses a prescription savings card to lower prices of prescription medicines. Cards are distributed for free by NC 2-1-1, participating United Ways, community and faith-based organizations, county agencies, doctors, businesses, and some pharmacies. Cards are also available online. There is no income limit, age requirement, eligibility, or registration needed. Everyone is approved for the savings card. You can print your savings card, search for pharmacies in your area, and review discount prices online.
- [The Community Assistance Program](#) is a pharmacy savings program that uses a prescription savings card to lower prices of prescription medicines. There is no income limit, age requirement, eligibility, or registration needed. Everyone is approved for the savings card. You can print your savings card and search for pharmacies in your area online.
- [The RxCut[®] Plus Program](#) is a pharmacy savings program that uses a prescription savings card to lower prices of prescription medicines. There is no income limit, age requirement, eligibility, or registration needed. Everyone is approved for the savings card. You can print your savings card, search for pharmacies in your area, and download special coupons online.
- [The NC Drug Card Program](#) is a pharmacy savings program that uses a prescription savings card to lower prices of prescription medicines. There is no income limit, age requirement, eligibility, or registration needed. Everyone is approved for the savings card. You can print your savings card and search for pharmacies in your area online.
- [The NeedyMeds Drug Discount Program](#) is a pharmacy savings program that uses a prescription savings card to lower prices of prescription medicines. There is no income limit, age requirement, eligibility, or registration needed. Everyone is approved for the savings card. You can print your savings card and search for pharmacies in your area online.
- [The Together Rx Access[®] Card Program](#) is a pharmacy savings program that uses a prescription savings card to lower prices of prescription medicines. To be eligible, you cannot have Medicare or any other prescription drug coverage and

must meet income requirements. You can see if you are eligible and sign up for the program online.

- [The Patient Advocate Foundation](#) gives financial assistance for prescription medications. Assistance is only given for expenses related to certain diseases and people who have a physician-confirmed diagnosis. [See the full list of diseases here](#). Patient must be currently insured and have income that is at or below 300% of the [Federal Poverty Level](#). Call 866-512-3861 for more information.
- Many retailers participate in the \$4 Generic Drug Program. Though many do not charge exactly \$4 for their generic drugs (most range from \$4 – \$15), it is a common name for this type of program. These generic programs make it possible for people who are struggling to pay for their needed medications. The NC Division of Medical Assistance keeps a list of the most common medications and some retailers who offer low-cost generics. [Find your prescription and retailer here](#). Please note that this list does NOT have all retailers who offer discount generic prescriptions. Call your pharmacy for more information and to see if they offer this program.
- [The Partnership for Prescription Assistance](#) helps people who are uninsured or underinsured access the medicines they need through the program that is right for them – free of charge. Many patients will get their medications for free or almost free.

Free prescription medications

- [The Medication Assistance Program](#) provides free prescription drugs to patients who cannot afford them. This service is offered through community clinics and community and faith-based organizations. The program matches patients with free medications available through pharmaceutical manufacturers.
- [Free Pharmacy Program](#) gives free prescription medication to individuals who are low-income, uninsured, and fall at or below 200% of the [Federal Poverty Level](#). This program can help people get *lifesaving* prescription medication to treat common diseases, such as heart disease, diabetes and asthma. Different agencies oversee the program in different counties.
- [Mobile Free Pharmacy Program](#) provides low-income adults and children with free over-the-counter medicine, such as aspirin, children's cough syrup, allergy medicine, and vitamins. The pharmacy store is in Charlotte on a full-time basis, but the mobile pharmacy travels throughout the state.

Community Alternatives Program Referral Process

A Medicaid Home- and Community-Based Service

The Community Alternatives Program (CAP) is a Medicaid Home- and Community-Based Services (HCBS) Waiver authorized under section 1915(c) of the Social Security Act and complies with 42 CFR § 440.180, Home- and Community-Based Waiver services. The Consumer Direction Lite program is a flexible service option created under Appendix K of the CAP waivers to mitigate risk to waiver participants by assuring necessary personal care service are available to meet assessed needs during the public health emergency.

WHO IS ELIGIBLE FOR CAP SERVICES?

Children from zero to 20 years of age who are medically fragile and have a reasonable indication of need for home- and community-based services to maintain their community placement are eligible for the Community Alternatives Program for Children (CAP/C).

Individuals 18 years of age and older who are physically disabled, meet a defined level of care and have a reasonable indication of need for home- and community-based services to maintain their community placement are eligible for the Community Alternatives Program for Disabled Adults (CAP/DA).

HOW TO MAKE A REFERRAL

Do one of the following:

- Contact a case management entity in your community.
- Discuss your interest in receiving CAP services with your doctor or a hospital representative.
- Contact the Social Worker at your nursing facility.
- Contact NC Medicaid Contact Center at 1888-245-0179 to request a referral.

HOW DOES THE REFERRAL PROCESS WORKS?

- A referral must be submitted with your name, date of birth and full street address.
- A Disclosure Letter is mailed to the address included in the referral within two business days of the referral's approval.
- Three forms are included with the disclosure letter that must be returned to NC Medicaid for review of eligibility for CAP services. These three forms are:
 - a. Service Request Consent form
 - b. Selection of Case Management form
 - c. Physician's WorksheetInstructions are in the disclosure letter on how to return the three required forms.
- When the signed and dated consent form is received, the review of your medical condition begins in order to access medical fragility, if you applied for CAP/C or assessment of a defined level of care, if you applied for CAP/DA.
- If medical fragility or a defined level of care is determined, the selected case management entity will be notified to conduct a comprehensive assessment.
- The timeline to receive CAP services, if all requirements are met, can be up to 105 days.

Health Care Coverage

Children and youth with special health care needs (CYSHCN) require health care coverage that is universal and continuous, adequate, and affordable. However, there are major gaps in the current system of health care coverage and financing that cause significant problems for CYSHCN in accessing care and financial hardship for their families.

Young adults may remain on their parents' health insurance plans until age 26 when there is family coverage. In North Carolina, disabled dependent should be able to stay on their parents' plan beyond age 26. Be sure to discuss this with your insurance provider well before your child's 26th birthday to ensure eligibility.

North Carolina General Statutes § 58-51-25.

Policy coverage to continue as to children with an intellectual or physical disability; or dependent students on medically necessary leave of absence..... attainment of the limiting age shall not operate or terminate the coverage of the child while the child is and continues to be (i) incapable of self-sustaining employment by reason of an intellectual or physical disability; and (ii) chiefly dependent upon the policyholder or subscriber for support and maintenance. The proof of such incapacity and dependency shall be furnished to the insurer, hospital service plan corporation, or medical service plan corporation by the policyholder or subscriber within 31 days of the child's attainment of the limiting age and subsequently as may be required by the insurer or corporation, but not more frequently than annually after the child's attainment of the limiting age.

Additional Health Care Coverage Resources:

Polk County Department of Social Services ----- 828-894-2100

www.Health Care.gov

<https://www.healthcare.gov/people-with-disabilities/more-information/>

If you have a special health care need, you have a number of options for health coverage in the Health Insurance Marketplace. Here, you can browse various health care plans available under the Affordable Care Act.

Health Savings Accounts

You may be able to set aside pre-tax dollars into an HSA through your employer. This account can be used for health-care expenses such as co-pays, and you may also be able to deduct health-care expenses on your taxes. Please see your employer regarding HSA. The IRS has information on medical tax deductions.

Innovations Waiver and Registry of Unmet Needs

The **N.C. Innovations Waiver** allows individuals with intellectual/ developmental disabilities to receive services and supports in their own community. This helps people live as independently as possible, rather than in an institution like a developmental center. Innovations is a home and community-based service.

Innovations is designed to promote independence, choice, community integration and the ability to realize life goals. It includes services that:

- Support you to live where you choose
- Support you to spend your day in a way that you choose
- Provide education on how to be more integrated into your community
- Teach and support you to live more independently and manage your own services, if you choose

Innovations supports daily activities such as bathing, eating, working, developing friendships, and living an active lifestyle within you. The program includes some non-medical services, like respite and home modification. These are not available under traditional Medicaid and may help keep people out of institutional settings.

The **Registry of Unmet Needs** is a first-come, first-serve list maintained by Vaya to keep track of people waiting for intellectual/developmental disability services in western North Carolina.

We strongly encourage parents of children who have an intellectual/developmental disability and may need Innovations Waiver services in the future to call us to add your child to the registry now. To learn more about Innovations or the Registry of Unmet Needs, call Vaya's Access to Care Line at **1-800-849-6127**.

How to Access the Registry of Unmet Needs

Special Needs Legal and Financial Concerns

Are you asking yourself these questions?

- How will we pay for the special therapies our child needs now?
- Who will pay our child's expenses once he or she becomes an adult?
- Where will our child live and who will oversee his or her care after we are gone?

These questions and fears might stop you in your tracks. But financial planners say that creating a plan can ease anxiety. Some of the issues you need to confront are financial: How do you set aside money for your child without affecting his or her government benefits? And some are emotional: Who would understand your child's needs if something were to happen to you right now?

**Need further
assistance?**

Pisgah Legal Services ----- 1-800-489-66144

Henderson, Buncombe, Madison, Polk, Rutherford, Transylvania

PLS seeks to pursue justice by providing legal assistance and advocacy to help low-income people in Western North Carolina to meet their basic needs and improve their lives.

Special Needs Alliance ----- <https://www.specialneedsalliance.org/>

The mission of the SNA is to maintain a professional organization of attorneys skilled in the complex areas of public entitlements, estate, trust and tax planning, and legal issues involving individuals with physical and cognitive disabilities.

Disability Rights North Carolina ----- 1-877-235-4210

DRNC is a legal advocacy agency that fights for the rights of people with disabilities in North Carolina. They handle cases involving discrimination, abuse and other rights violations. All services are at no cost to North Carolinians with disabilities.

Legal Aid of North Carolina ----- 1-866-219-LANC (5262)

Legal Aid of North Carolina is a statewide, nonprofit law firm that provides free legal services in civil matters to low-income people in order to ensure equal access to justice and to remove legal barriers to economic opportunity.

Legal Health Issues Fact Sheet

Medical Power of Attorney

A Medical Power of Attorney is a document, signed by a competent adult; designating a person that she/he trusts to make health care decisions on their behalf should they become unable to make such decisions. We have provided a sample document in the Appendix for your review. Check the following websites for more information: www.legalhelpmate.com/power-of-attorney.aspx; www.expertlaw.com/library/estate_planning/power_of_attorney.html.

Health Insurance Portability and Accountability Act (HIPAA)

HIPAA is a federal law that covers both the privacy of your youth's medical information as well as issues related to the transfer and continuation of health insurance coverage. We have included a fact sheet in the Toolkit for your review. For more information check the US Department of Health and Human Services website at www.hhs.gov/ocr/hipaa.

Family Educational Rights and Privacy Act (FERPA)

FERPA is another federal law that deals with access to educational records, as well as health records held at educational institutions. Please review the fact sheet in the Appendix. A brochure for parents can be found on the US Department of Education website: www.ed.gov/policy/gen/guid/fpco/brochures/parents.pdf.

Guardianship

There are many factors to consider when deciding guardianship. A guardianship is the legal proceeding by which a capable adult (e.g. agent) can be appointed to manage the personal or financial affairs of an individual who is unable to do so on his or her own. As a parent, the best resource for obtaining more information is to visit the NC Guardianship Association at www.nc-guardian.org.

Medical Power of Attorney

Effective Upon Execution

I, [NAME], a resident of [ADDRESS. COUNTY,STATE]; Social Security Number [NUMBER] designate NAME], presently residing at [ADDRESS], telephone number [PHONE NUMBER] as my agent to make any and all health care decisions for me, except to the extent I state otherwise in this document. For the purposes of this document, "health care decision" means consent, refusal of consent, or withdrawal of consent to any care, treatment, service, or procedure to maintain, diagnose, or treat an individual's physical or mental condition. This medical power of attorney takes effect if I become unable to make my own health care decisions and this fact is certified in writing by my physician.

Limitations: [Describe any desired limitations, for example, concerning life support, life-prolonging care, treatment, services, and procedures.]

Inspection and Disclosure of Information Relating to My Physical or Mental Health: Subject to any limitations in this document, my agent has the power and authority to do all of the following:

1. Request, review, and receive any information, verbal or written, regarding my physical or mental health, including, but not limited to, medical and hospital records;
2. Execute on my behalf any releases or other documents that may be required in order to obtain this information;
3. Consent to the disclosure of this information.

Additional Powers: Where necessary to implement the health care decisions that my agent is authorized by this document to make, my agent has the power and authority to execute on my behalf all of the following:

1. Documents titled or purporting to be a "Refusal to Permit Treatment" and "Leaving Hospital Against Medical Advice";
2. Any necessary waiver or release from liability required by a hospital or physician.

Duration: This power of attorney exists indefinitely from its date of execution, unless I establish herein a shorter time or revoke the power of attorney. **[If applicable:** This power of attorney expires on [DATE]. If I am unable to make health care decisions for myself when this power of attorney expires, the authority I

have granted my agent shall continue to exist until such time as I become able to make health care decisions for myself.]

Alternative Agent: In the event that my designated agent becomes unable, unwilling, or ineligible to serve, I hereby designate [NAME], presently residing at [ADDRESS], telephone number [PHONE NUMBER] as my as my first alternate agent, and [NAME], presently residing at [ADDRESS], telephone number [PHONE NUMBER] as my as my second alternate agent.

Prior Designations Revoked: I revoke any prior Medical Power of Attorney.

Location of Documents: The original copy of this Medical Power of Attorney is located at [Location].

Signed copies of this Medical Power of Attorney have been filed with the following individuals and institutions: [Names and Addresses].

I sign my name to this Medical Power of attorney on the date of [DATE], at [ADDRESS, COUNTY, STATE].

[NAME]

Statement of Witnesses

I hereby declare under penalty of perjury that the person who signed or acknowledged this document is personally known to me (or proved to me on the basis of convincing evidence) to be the principal, that the principal signed or acknowledged this durable medical power of attorney in my presence, that the principal appears to be of sound mind and under no duress, fraud, or undue influence. I am not the person appointed an agent by this document. I am not related to the principal by blood, marriage, or adoption. I would not be entitled to any portion of the principal's estate on the principal's death. I am not the attending physician of the principal or an employee of the attending physician. I have no claim against any portion of the principal's estate on the principal's death. Furthermore, if I am an employee of a health care facility in which the principal is a patient, I am not involved in providing direct patient care to the principal and am not an officer, director, partner, or business office employee of the health care facility or of any parent organization of the health care facility.

[WITNESS]

[WITNESS]

Subscribed and sworn to before me on [DATE].

Notary Public, [COUNTY, STATE]

My commission expires_____.

Information about potential health care programs and funding resources in NC.

<http://nccdd.org/> NCCDD has 40 members appointed by the Governor of which 60 percent are required to be people with intellectual or other developmental disabilities (I/DD) or family members. Others members include state legislators, top state agency officials and representatives of Local Management Entities/Managed Care Organizations (LME/MCO) and service providers. The Council meets quarterly and oversees both the provisions of the Developmental Disabilities Assistance and Bill of Rights Act (DD Act) and to assure the Council is a member-driven, effective, efficient organization. The NCCDD works on behalf of over 185,000 people with I/DD living in NC. The work of the Council is directed to help communities become more inclusive of people with I/DD and their families.

National Resources

<http://www.aap.org/> American Academy of Pediatrics

www.HealthyTransitionsNY.org For youth with developmental disabilities ages 14-25, family caregivers, service coordinators, and health care providers. It teaches skills and provides tools for care coordination, keeping a health summary, and setting priorities during the transition process. It features video vignettes that demonstrate health transition skills and interactive tools that foster self determination and collaboration.

<http://www.medicalhomeinfo.org/> Provides resources for health professionals, families, and everyone interested in creating a family-centered medical home for all children and youth.
