Calculated Design Flow, Commercial Δ: _____ (This value will be determined by EH staff)

The Applicant shall notify the local health department upon submittal of this application if any of the following apply to the property in question. If the answer to any question is "yes", applicant must attach supporting documentation.

- Yes No Does the site contain any jurisdictional wetlands?
- Yes No Does the site contain any existing wastewater systems?
- Yes No Is any wastewater going to be generated on the site other than domestic sewage (if no, see note below¹)?
- Yes No Is the site subject to approval by any other public agency?
- Yes No Are there any easements or right of ways on this property?

Describe: _____

If applying for an Improvement Permit or Authorization to Construct, Please Indicate Desired System Type(s): (systems can be ranked in order of your preference)

Accepted Alternative Conventional Innovative Other Any

¹Please note: Other than domestic wastewater, engineered, industrial process and large systems may require review/approval by NCDHHS prior to the issuance of an authorization for wastewater system construction by the local health department. Industrial process wastewater is defined as any water carried waste resulting from any process of industry, manufacturing, trade, or business (e.g., salons, animal barns, kennels, distilleries/ breweries, dental and medical offices, shopping centers, exterior vehicle washes, animal processing facilities, food processing plants, laboratories [medical, commercial and institutional], funeral homes, mortuaries, incinerators, film processing operations, etc.).

POLK COUNTY BUILDING/ENVIRONMENTAL HEALTH/ZONING/911 APPLICATION

ENVIRONMENTAL HEALTH SECTION - SEPTIC/WELL INFORMATION

* Any room that will be intended for sleeping at the time of construction or for future consideration should be noted as a bedroom and counted on all applications. The number of bedrooms will be confirmed by rooms identified on floor plans as a bedroom at the time of building permit issuance. This may prevent the need for septic system expansion in the future.

Δ If structure is plumbed but has no bedrooms, calculated design flow will be determined by Environmental Health Staff.

** If No, a well permit must be issued with the Authorization to Construct.

Environmental Health: RETRIP TO THE PROPERTY AND/OR SYSTEM REDESIGN WILL INCUR AN ADDITIONAL CHARGE (SEE FEE SCHEDULE).

Completed applications are valid for a period of one (1) year. Improvement Permits are valid: with complete site plan = 60 months (5 years); with complete plat = without expiration. An Authorization to Construct will remain valid as long as the Improvement Permit is valid. An Authorization to Construct, issued for septic repair is valid for 60 months (5 years). Permits may be revoked if the information on this application/site plan changes or if the intended use for the proposed facility changes. Permits may be revoked if site conditions are altered such that they effect permit conditions or installation requirements.

Environmental Health Application:

Initial _____: I certify that the information provided herein is true, complete and correct. Authorized county and state officials are granted right of entry to conduct necessary inspections to determine compliance with applicable laws and rules. I understand that I am solely responsible for the proper identification and labeling of all property lines and comers and making the site accessible so that a complete site evaluation can be performed.

The undersigned hereby certifies that he/she is either the owner or the authorized agent of the owner and hereby makes application for permit and inspection of work described and agrees to comply with all applicable ordinances of Polk County, NC and the laws of the State of North Carolina regulating the work. NOTE: IT IS THE CONTRACTOR/APPLICANT'S RESPONSIBILITY TO CALL FOR INSPECTION AT PROPER STAGE OF WORK.

Site Plan Form

Instructions to Applicant: The Environmental Health Specialist cannot begin the evaluation process until all property lines and the proposed home or building are staked and flagged with dimensions. Property lines must match those shown on a surveyor preliminary plat. **(A site evaluation cannot be scheduled until this site plan form is completed and signed).**

As Close To Scale As Possible: **1.** Draw the proposed lot showing all existing or proposed property lines with dimensions and orientation to proposed streets and roads. **2.** Indicate the location of the proposed home, facility or building including decks, walkways, garages, driveways, pools or other structures showing dimensions and setbacks and the site for the proposed wastewater system **3.** Locate all wells, both existing and proposed, including those on adjacent properties if known. **4.** All surface water including springs, creeks, ponds, rivers, etc. must be shown. **5.** The site plan or plat shall also include information on any existing or proposed easement, encroachment agreement or right of way for the property (access easement, utility easement or road or electrical right of way). **6.** For well applicants include location of existing or proposed chemical or petroleum storage tanks above or below ground.

"SEE REVERSE FOR EXAMPLE OF COMPLETED SITE PLAN FORM"

I hereby agree that the information shown is correct to the best of my knowledge.
