

PSAT

Every student in grades 8, 9 and 10 in the State of Michigan must take the PSAT in April. These assessments are developed by the College Board as part of their SAT Suite of assessments. • PSAT 8/9 is the test for grade 8 and grade 9 and is a paper/pencil assessment. Students in those two grades take the same test but are scored on different scales. • PSAT 10 is the paper/pencil assessment for grade 10: They are a measure of what a student learns in middle school and high school and what they will need to learn to be ready for college.
