

1. **Commendation from Gov. Evers**
2. **Little Volunteers helping pack volunteer bags**
3. **3D Printed Assistive Devices**
4. **Staff engaging in Team Building Activity**
5. **Community Alliance at Wellness Event**
6. **Cleaning up the litter in our parking lot**

Communicable Disease

- Highly pathogenic avian influenza (bird flu) was identified at a poultry farm in WI and has now been identified in several wild birds. [What to know about bird flu](#) is especially important if you handle live poultry or a sick or injured wild bird.
- Multiple reports of “stomach flu” in and around Greendale
- Viral gastroenteritis is an intestinal infection that includes signs and symptoms such as watery diarrhea, stomach cramps, nausea or vomiting, and sometimes fever. This type of illness is not actually the flu (INFLUENZA) as influenza is a respiratory (lung/breathing) virus. The flu shot will not protect you from the “stomach flu” only from influenza.

Chronic Disease

- The [Greendale Community Robotics Club](#) is offering [3D printed assistive devices](#) for individuals who may need a little assistance with tasks.
- Mind Over Matter workshop started on 3/9 and is a 3-session workshop focusing on bowel and bladder health.
- Stepping On workshop started on 3/17 and is a 7-week session focusing on fall prevention and safety.
- Memory Café is back in Greendale! Individuals with dementia or memory loss and their care partners are invited to join. One Wednesday a month at 2:30pm at the Historic Hose Tower (previously held at Ferch's). [Greendale Memory Cafe - Home | Facebook](#)

Community Alliance

- Community Wellness Event was held at Greendale Middle School in partnership with Greendale Schools. 8th grade students presented their health projects, multiple wellness resources and activity booths, and [Phillip Chard](#), a national speaker and psychotherapist presented on the topic of anxiety.
- Started our Clean & Green initiative by cleaning up our parking lot and providing Park & Rec's Bridge for Kids with supplies and refreshments to do their own clean up event around the middle school.

Greendale Health Department Board of Health Report 03/2022
