

**Town of Wenham**  
**Hotline Tips**

Report any of the following conditions anywhere within the watershed to the Department of Public Works:

- Flooding issues.
- Clogged catch basins.
- Collapsed pipes.
- Obstructed outfalls.
- Failing septic or other wastewater treatment systems.
- Discolored or foamy water in any stream, wetland, pond or reservoir.
- Illegal dumping or illegal discharges of petroleum products and other hazardous materials.
- Accidental spills and leaks of petroleum, hazardous materials, sewage, etc.
- Highway accidents, especially those involving trucks, vans and tankers.
- Unusual odors from petroleum, sewage or other sources.

Reportable conditions at town-owned lands surrounding reservoirs include:

- Boats.
- Floating objects.
- Tree cutting and vandalism.
- Vehicles such as motorcycles, ATVs and snowmobiles.
- Swimmers, hunters and other trespassers.

Complainants should be prepared to give the following information:

- Description of the condition or incident.
- The location of the problem, as precisely as possible.
- The time and date when the condition was first discovered.
